### 2. Operations

The Fertilisers and other Agri-inputs business of the Company contributes 87% of the total revenue, whereas Shipping and Textile contributes the remaining. The Company has registered an increase in the turnover mainly on account of increase in sale of branded products like fertilisers, pesticides and other agri-inputs, increase in prices of natural gas and depreciation in value of Indian Rupee vis-à-vis USD (as the natural gas prices are denominated in USD). The turnover of Shipping Division was higher mainly on account of revenue from in-chartered vessels, better realisations from own vessels and foreign exchange rate variations. The turnover of Textile Division was almost at the level of last year.

The Fertilisers business faced multiple challenges during the year. The Company had to shutdown Gadepan – II plant from February 8, 2015 due to un-favourable policy of the Government of India for production beyond 100% capacity. This has resulted into lower production of Urea. Delays in disbursement of subsidy by Government of India continued to affect the profitability of the Company as the interest burden continued to mount. However, impressive performance of branded products gave a major boost to the profitability of the Company. The Company has established itself as a major player in its marketing territory offering wide range of products to farming community.

The Shipping Division made a come-back by achieving much better performance in comparison to the last year. The year started with a subdued note but it was looking up during the later part of the year as charter rates firmed up in March 2015.

The performance of Textile Division remained subdued due to low demand scenario in the market. The realisations remained under stress causing lower profitability of the Textile Division. During the last quarter, the Board of Directors of your Company has approved the sale of its textile business to Sutej Textile & Industries Limited, as a going concern on slump sale basis. The parties are in the process of obtaining necessary approvals for the transaction.

The detailed information on all the business segments of the Company and the respective industries are given in the Management Discussion and Analysis Report attached as Annexure "A" to this report.

### 3. Dividend

The Board recommends dividend @ Rs. 1.90 per equity share of Rs. 10 each (Previous Year – Rs. 1.90 per equity share) for the financial year ended March 31, 2015. The total outgo on this account will be Rs. 95.18 crore including dividend distribution tax.

### 4. 'Corporate Governance Report' and Code of Conduct

The Company is committed to maintain highest standards of Corporate Governance and strives to improve the corporate governance standards. Corporate Governance Report for the Financial Year 2014-15 is attached as Annexure "B". The declaration of the Managing Director confirming compliance with the 'Code of Conduct and Ethics' is enclosed as Annexure "C" and Auditors' Certificate confirming compliance with the conditions of Corporate Governance is enclosed as Annexure "D".

### 5. Joint Venture : Indo Maroc Phosphore S. A., Morocco (IMACID)

IMACID is a joint venture of your Company with two other partners - Tata Chemicals Limited and OCP, Morocco, each partner holding equal stake in the joint venture. IMACID is engaged in the manufacture of phosphoric acid in Morocco.

During the year 2014, IMACID achieved revenue of Moroccan Dirham (MAD) 2376.30 million (Rs. 16686.12 million) against revenue of MAD 2135.72 million (Rs. 14713.50 million) achieved during the year 2013. The profit after tax of IMACID was MAD 90.09 million (Rs. 632.60 million) during the year as against MAD 83.15 million (Rs. 572.80 million) in the year 2013.

During January - March 2015 quarter, IMACID achieved operating income of MAD 486.91 Million (Rs. 3045.17 million).

The Financial position of IMACID as at December 31, 2014 was as under:

Share Capital - MAD 620 Million  
Total Assets - MAD 1444.71 Million  
Reserves and Surplus - MAD 150.12 Million  
Total Liabilities - MAD 1444.71 Million  
Investments - NIL

### 6. Subsidiaries

#### (i) Chambal Infrastructure Ventures Limited and its Subsidiaries

Chambal Infrastructure Ventures Limited ("CIVL") is a wholly owned subsidiary of your Company. CIVL was set up to pursue the business opportunities in Power Sector. CIVL had established two down-stream wholly owned subsidiaries viz. Chambal Energy (Chhattisgarh) Limited and Chambal Energy (Orissa) Limited. CIVL has identified a new site for its project in Odisha and the matter is being pursued with the concerned authorities for approval of the new site and renewal of Memorandum of Understanding.

During the financial year 2014-15, the Board of Directors of CIVL approved merger and amalgamation of Chambal Energy (Chhattisgarh) Limited and Chambal Energy (Orissa) Limited with CIVL. CIVL is in the process of filing the scheme with the Hon'ble Delhi High Court.

(ii) **CFCL Overseas Limited, Cayman Islands**

In pursuance of Section 186 of the Companies Act, 2013, a company should make investment through not more than two layers of investment companies. Accordingly, your Company has approved voluntary winding of its wholly owned subsidiary - CFCL Overseas Limited ("COL"). In pursuance of voluntary liquidation, all the assets of COL including its investments in CFCL Technologies Limited, Cayman Islands have been transferred to your Company (being sole shareholder of COL). As a result, CFCL Technologies Limited has become direct subsidiary of your Company. As per the Certificate of Dissolution dated March 26, 2015 issued by the Registrar of Companies, Cayman Islands, COL will be deemed to be dissolved on June 26, 2015.

(iii) **CFCL Technologies Limited, Cayman Islands and its Subsidiaries**

CFCL Technologies Limited, a subsidiary of your Company, operates business through its step-down subsidiaries mainly in USA and India. The Software Business is end-to-end provider of technologies and services to the mortgage industry in USA.

There was sharp decline in the performance of Software Business during the Year 2014. There was significant reductions in business volumes from all the key clients in USA market due to downward trend in the mortgage industry.

(iv) **India Steamship Pte. Limited, Singapore and its Subsidiary**

India Steamship Pte. Limited, Singapore ("ISS, Singapore") is a wholly owned subsidiary of your Company. ISS, Singapore has hired a vessel on time-charter for one year in August 2014. India Steamship International FZE, UAE is a wholly owned subsidiary of ISS, Singapore. There was no business activity in this entity during the year under review.

(v) **India Steamship Limited, India (ISL)**

ISL is a wholly owned subsidiary of your Company. There was no business activity in ISL during the year under review.

Save and except voluntary liquidation of CFCL Overseas Limited as mentioned earlier, no subsidiary, associate or joint venture have been acquired/ included or ceased during the year under review.

The performance and financial position of the subsidiaries of the Company is summarized in Form AOC - 1 attached to the Financial Statements of the Company in pursuance of Section 129 of the Companies Act, 2013. The Company shall place the audited financial statements of its subsidiaries on its website in pursuance of Section 136 of the Companies Act, 2013 and shall provide a copy of these statements to any shareholder seeking it. These documents will also be available for inspection by members during business hours at the registered office of the Company at Gadepan, Dist. Kota, Rajasthan.

**7. Health, Safety and Environmental Protection**

The commitment of your Company to Environmental Protection and Safety begins with the comprehensive EHS (Environment, Health and Safety) policy formulated by the Company. Your Company accords highest priority to EHS which is reflected in the day to day operations of the Company. Apart from regular reviews and monitoring at the

operating levels, the senior management also continuously monitors the EHS parameters. The Company strives for continuous improvement through benchmarking studies and other appropriate methodologies. Your Company has established and is maintaining an Integrated Management System; based on OHSAS-18001:2007, ISO-14001:2004, ISO-9001:2008 and Process Safety Management (PSM) and guidelines of British Safety Council. The township at Gadepan is also OHSAS-18001 & ISO-14001 certified.

(a) **Health & Hygiene**

Health assessment and occupational disease monitoring of employees and associates is done through regular periodic medical examinations. The Health Centre at Gadepan provides its services round the clock to employees, their families, contractor work force and villagers in the vicinity of the plants. Specialist doctors like child specialist, Eye specialist, dental surgeon, Gynaecologist, ENT surgeon visit regularly at Health Centre. The up-gradation of the Health Centre by addition of new equipment is a continuous process.

Health and hygiene awareness campaigns were regularly held for employees through experts in various fields. Pulse polio vaccination, regular immunization programme to new born and swine flu vaccination drives were organised from time to time.

(b) **Safety Management**

A strong occupational health and safety management system is in place in your Company to ensure occupational health and safety of employees, contractor workforce as well as equipment and machinery. Further, your Company has implemented, in its operations at Gadepan, Process Safety Management System (PSM) developed by Occupational Safety and Health Administration (OSHA) for proactive identification, assessment & control of hazards. Effective implementation of the safety system is ensured through hazard identification, risk assessment and mitigation procedures, strong updated safety work permit system, etc.

The extensive trainings and drills were conducted by internal and external experts on rescue, work at height, working inside confined space, fire-fighting, emergency handling, electrical safety, material handling, road safety, use of Breathing Air sets, etc. To encourage safety awareness and involvement among employees and contractor workforce, scheme of "Near-Miss" & "Make-to Good" reporting is in place. Further, under the system of Pro-active safety observation, any one observing an unsafe act/ condition may immediately interact with and get the same corrected.

The concept of Behaviour Based Safety (BBS) for safety improvement in Urea bagging plant is working satisfactorily and noticeable improvement has been observed in work culture. The concept of BBS was introduced in the Single Super Phosphate (SSP) plant also. As a part of safety improvement initiatives, a Safety portal - Uttam Suraksha Setu has been developed and implemented during the year. This has enabled online reporting, management and monitoring of safety incidents and records.

Your Company has a well-defined "Onsite Disaster Management Plan" and MARG (Mutual Aid and Response Group) arrangement with neighbouring industry. Regular mock drills, fire drills and table top drills were conducted to verify emergency preparedness. Prompt services for fire-fighting were provided to villages surrounding Gadepan plants. Various fire-fighting and emergency handling equipment have been added to further improve the capability.

### (c) Environment Management

Environment protection is one of the top priorities of your Company and a strong Environment Management System is in place. Extensive environmental monitoring is carried out to assess pollution risk to all personnel working directly or indirectly with us and residing in surrounding areas and immediate corrective and preventive measures are taken. Online monitoring system for effluent and emissions are being installed.

The conservation of natural resources is a priority area for your Company. The measures like Rain Water Harvesting, Ground Water Recharging, Energy Conservation, etc. are some of the efforts continuously made by your Company for this purpose. Your Company continues to follow the 3R concept (Reduce, Re-use and Re-cycle) for waste management. Almost 100% condensate is recycled back to system. Your company has adopted best practices to manage solid / hazardous waste disposal after proper categorization. Use of polythene bags are strictly prohibited in Gadepan campus.

The Company's Gadepan complex made a positive change in Ecology due to development of a dense green belt with thousands of trees & shrubs with fruits and flowers in an area of about 153 hectares. Regular plantations are done in the campus. This has provided habitat to many species of birds. Only treated waste water is used in maintaining the green belt through irrigation network spread all over the complex.

### (d) Quality Management

Your company is ISO 9001:2008 certified and proper attention is accorded to maintain quality of end product and processes. The quality assurance is ensured at all stages of manufacturing processes, maintenance and support services. Quality is continually improved by: "determining and taking care of internal and external customer requirements, future needs and expectations". Quality reviews are regularly conducted and feedback from end users - farmers is accorded high value.

### (e) Health, Safety, Environment, Quality (HSEQ) Audits and Reviews

HSEQ system is continually improved by conducting periodic audits by teams of trained internal auditors and reputed external agencies. The better practices of other organisations are adapted as per our own requirements.

### (f) Achievements

Your Company regularly participates in national and international benchmarking surveys and awards for independent assessment and opportunity for continual improvement. Your Company has received following prestigious awards during the year under review:

- National Award for prevention of Pollution for the year 2010-11 under the Fertiliser category from Govt. of India, Ministry of Environment and Forests.
- Certificate of appreciation from National Safety Council of India (Safety awards 2013) for the year 2010-2012.
- Environmental Protection Award (Winner) in the Nitrogenous Fertiliser Plants Category for the year 2013-14 from Fertiliser Association of India.
- Rajasthan Energy Conservation Award (RECA – 2014) from Department of Energy, Govt. of Rajasthan.

## 8. Corporate Social Responsibility (CSR)

Your Company strives to make difference in the lives of people with a special focus on neighbouring areas. Your Company has identified and implemented various CSR programmes / Projects which made perceptible positive impact mainly in the area of education and general awareness. The CSR programmes / projects of the Company are implemented directly, through KK Birla Memorial Society as well as in collaboration with other established and reputed Non-Government Organisations. The major highlights of the CSR projects/ Programmes of the Company during the Financial Year 2014-15 are as under:

- a) **School Education:** The Company has adopted 32 Government Schools in 22 villages of District Kota in the vicinity of its plants at Gadepan. Intervention in school education is being carried out through two agencies namely Pratham Education Foundation and Kumar Classes for improving the education level of students. The education standards in Rajasthan are lower than the national average and that in Company's CSR area is substantially lower than the average standard of Rajasthan. After your Company's intervention, an impact assessment was carried out in March 2015. Good improvement has been observed in learning levels of students at all levels in 32 schools in last three quarters vis-à-vis baseline survey. As a pilot project, Computer education has been introduced in 10 schools to introduce digital literacy in Government Schools. The Company also provided free of charge school furniture, stationary, school bags, shoes, woollens, etc. in the adopted schools.

Major challenges faced in this intervention are (a) making government teachers accountable; and (b) availability of good private teachers, in particular the female teachers for Balwadi Centres.

- b) **Technical Education:** Your Company has adopted 2 Industrial Training Institutes (ITIs) at Sangod and Sultanpur in Kota district of Rajasthan. ITI Sangod was taken over 2 years back and has made very good progress in terms of number of courses offered, student enrolment and campus placement of the students. Almost 100% eligible students of ITI, Sangod were placed with reputed companies. ITI Sultanpur was adopted during the year 2014-15. We have built necessary infrastructure, bought equipment and sought fresh affiliation approval from Central Government for the existing courses as well as introduction of new courses. Apart from the ITIs, the company is running 2 vocational training centres to train about 400 youths annually on the lines of Skill India Mission.

- c) **Development of Infrastructure:** The Company has carried out following infrastructure development projects:

- i) Renovation of newly adopted 6 Government schools.
- ii) Construction of Girls toilets in 34 Secondary and Senior Secondary Government Schools in Sultanpur Block.
- iii) Construction of 125 individual toilets in adjoining villages.
- iv) Construction of pavements, drainage and roads in collaboration with MNREGA schemes.

- d) **Health Care:** The Company provides healthcare free of charge in adjoining 23 villages of Kota district and 5 villages in Mussoorie in collaboration with Manorama Devi Birla Charitable Trust.

- e) **Soil Health:** The Company is running Soil Health Laboratories at

Agra and Kota apart from mobile vans, with an annual capacity of 50,000 samples of soil and water.

- f) **Disaster Relief:** The Company has carried out relief work in Jammu & Kashmir through an NGO – Pragma International.

As part of its CSR programmes, the Company has also taken various initiatives under Swachh Bharat Mission, Gramin Swarojgar Yojana, etc.

The Company received various recognitions and awards for its CSR activities like ASSOCHAM- CSR Excellence Award, Think Media CSR Award etc. Further, the Manager (CSR) was selected amongst 50 talented CSR leaders by world CSR congress.

The composition of Corporate Social Responsibility Committee is given in the Corporate Governance Report. The details of the development and implementation of the Corporate Social Responsibility Policy and Annual Report on CSR activities as prescribed under Section 135 of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014 is annexed herewith as Annexure "E".

For the purpose of Section 135 of the Companies Act, 2013, the amount equivalent to 2% of the average net profits of the Company made during the immediately preceding three financial years works out to Rs. 9.10 crore. As against this, the Company spent Rs. 8.36 crore on CSR projects / programs. Due to the low monetary value of individual projects in villages, the mobilization of resources was extremely challenging in terms of availability of trained manpower and contractors to complete the projects. Hence, it was not able to spend the balance amount.

### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Company has three businesses – Fertilisers and other Agri-inputs, Shipping and Textile. The Management Discussion and Analysis Report covering the aforesaid business segments of the Company is as under:

#### 1.0 FERTILISERS AND OTHER AGRI-INPUTS DIVISION

##### 1.1 Industry Structure and Developments

###### A) Urea

###### (i) Raw Material

Natural Gas is the main input and constitutes the major part of cost for production of Urea. The Company uses domestic gas and imported Re-gasified Liquefied Natural Gas (RLNG) under long term and short term supply arrangements. After upward trend for few years, the Gas prices came down sharply in the international market during the year 2014-15 due to fall in prices of Crude Oil.

RLNG constitutes a major part of gas requirement of the Company. The spot gas prices came down sharply in line with the international market. The prices of long term RLNG are linked to long term average of crude oil index. Hence, the impact of current low prices of Gas in international market will gradually reflect in the long term RLNG prices over next few years. The dwindling domestic gas supply is an area of concern. The Government of India (Government) revised the prices of domestic gas during the year. The Government has recently announced the pooling of Gas for Fertiliser sector which is a positive step. However, the final contours of gas pooling mechanism are awaited.

###### (ii) Demand-Supply Scenario

Urea production remained almost stagnant in India for many years despite steady increase in its demand. No new capacities were added during last 15 years except revamp of few existing plants. This has resulted into significant gap between demand and supply. India imported around 8.75 million MT of Urea during the year 2014-15, constituting about 28% of the total urea consumption in the country. Imported Urea prices remained volatile during the year ranging between USD 270 and USD 360 per MT (FOB – Arabian Gulf).

###### (iii) Developments in Government Policies

New Pricing Scheme Stage III which was valid upto March 31, 2010, has been extended till March 31, 2015. The new government policy for existing Urea plants is awaited.

In order to reduce the dependence on imports, the Government announced a New Investment Policy 2012 (NIP) with few amendments for attracting fresh investments in Urea sector.

###### B) Other Products

The Company is also engaged in manufacture of Single Super Phosphate (SSP). The installed capacity of the Company for SSP is 180,000 MT per annum. The SSP market is very fragmented with many small players. Apart from its own product, the Company also sources SSP manufactured by other parties. SSP is cheaper alternative of DAP which caters to specific segment of farmers and crops.

The Company imports and supplies Di-ammonium Phosphate (DAP) and Muriate of Potash (MOP) in its marketing territory. The Company competes with large players in DAP and MOP segment. The products are sourced from reputed international manufacturers to ensure quality of the product. India imported around 3.82 million MT of DAP during the year 2014-15, about 51% of the total DAP consumption in the country. Imported DAP prices were volatile during the year. The consumption of MOP in India is entirely met out of imports. MOP imports in the country during the year were 4.18 million MT as against 3.18 million MT during the previous year. The demand of DAP and MOP remained robust during the year.

The Company also deals in other agri-inputs like Sulphur, NPK fertilisers, micro-nutrients, insecticides, herbicides, fungicides, seeds, etc. under the single window concept. The products are sourced from reputed manufacturers including multinational companies. The insecticides market is dominated by multi-national companies and the products are either manufactured by them or they supply the basic ingredients to domestic manufactures for production of finished products. The seeds and micro-nutrients market is dominated by small manufactures. Hence, the products like seeds, zinc, gypsum, micro-nutrient mixtures, etc. are sourced from domestic manufacturers with tight controls on quality of the products.

### 1.2 Opportunities & Threats

The New Investment Policy 2012 (NIP) withheld earlier, was released during the year with few amendments. Since considerable time was taken by the Government in releasing the revised policy, the quoted prices of the suppliers for new Urea project has to be re-negotiated. Accordingly, the Company is reviewing its plans for capacity expansion for production of Urea and final decision will be taken in next few months.

The implementation of Nutrient Based Subsidy Policy by the Government gave a major boost to the Company's business of trading in branded fertilisers like DAP and MOP. The Company has established reliable supply channels in the international market and reinforced its marketing network to get full benefit of opportunities available in DAP and MOP segments. The Company has firmly established itself as a major player and achieved substantial increase in sales volumes of DAP and MOP. However, the volatility in the global prices of these fertilisers as well as variation in the foreign exchange rates are the challenges and your Company is conscious of these factors while making its marketing strategy.

Urea production beyond re-assessed capacity is becoming unviable for most of the urea manufacturing units due to increased cost of RLNG, price rise in domestic gas and fall in the international urea prices. The Company had to shut down one of its Urea plants in February 2015 because production beyond 100% capacity was not viable. The Urea industry needs immediate policy intervention from the Government to sustain the production beyond re-assessed capacity. The Company expects the Government to come out with a new policy for existing Urea Plants which can enable the Urea manufacturers to produce beyond re-assessed capacity. The proposed pooling of Gas for fertilizer industry is a positive step in this direction.

### 1.3 Risks and Concerns

The Urea segment of Fertiliser Industry operates in a

Government controlled regime highly dependent on the Government policies. During last few years, the Government has resorted to under-provisioning of fertilizer subsidy in the union budget. This has resulted into long delays in payment of subsidy to the fertilizer companies thereby substantially increasing industry's interest burden.

High volatility in foreign exchange rates, likely reduction in demand of DAP due to its high cost and interest burden due to delay in payment of subsidy may impact the profitability from trading activities of the Company. In the event of non-revision in Government policies on Urea, the likelihood of reduction in Urea production beyond re-assessed capacity is another area of concern.

### 1.4 Outlook

Subject to risks and concerns mentioned above, the Urea industry is unlikely to face any challenge in terms of sales volumes in near future in view of demand-supply gap. The outlook of branded products in trading segment also looks positive in view of lower inventory of DAP in the trade channel, strong marketing network and brand loyalty for the products of the Company.

### 1.5 Operational and Financial Performance

The performance of Fertilisers and other Agri-Inputs Division is summarized below:

Particulars	2014-15	2013-14
Urea Production (MT in lac)	18.52	19.41
Urea Sales (MT in lac)	18.85	20.96
Single Super Phosphate Production (MT in lac)	1.38	1.03
SSP Sales (MT in lac)	1.65	0.64
Sales including Agri-inputs (Rs. in crore)	7762.45	7014.36
EBIDTA before exceptional item (Rs. in crore)	677.80	626.75

The revenue from branded traded products was Rs. 3209.71 crore during the financial year 2014-15 in comparison to Rs. 2628.81 crore in the previous year. The sales of various products were as under:

Products	2014-15	2013-14
Di- Ammonium Phosphate	6.39	6.04
Muriate of Potash	1.99	0.42
Single Super Phosphate	0.22	0.54
Other Fertilisers	0.42	0.60
Pesticides – (Rs. in Crore)	302.94	249.67
Seeds – (Rs. in Crore)	64.97	51.56

Your Company is setting up an additional marketing office at Kolkata to expand its market presence in eastern India.

### 1.6 Material Developments in Human Resources/ Industrial Relations

People and Talent Management continue to be one of the key focus areas of the Company. The availability of qualified and trained manpower is critical for the Company's continued success.

Your Company's HR Strategy is aligned to business and seeks to ensure that appropriate talent acquisition and retention plans are in place and reviewed periodically. Your Company believes in regular employee engagement with a sense of belongingness.

The Company continues to adopt progressive policies and processes for its personnel through the reviews of best market practices and other surveys to keep pace with need of the hour. The Company has thus been able to maintain attrition rates below the Industry level for the last three years. Your company continues to build the talent pipeline through recruitment of fresh engineers and professionals on a continuous basis. Wherever necessary, company recruits experienced manpower to bridge the talent gap.

Your Company provides behavioural and functional training regularly to its employees based on their development needs. Employees were nominated for external training programs, including Management Development Programmes of premier Management Institutes. The employee strength of Fertilisers and Agri-inputs Division was 926 as on March 31, 2015 and it continues to maintain open and cordial employee relations across all locations.

## 2.0 INDIA STEAMSHIP- SHIPPING DIVISION

### 2.1 Industry Structure and Developments

The dry bulk, containers and tankers are three major segments of Shipping Industry. The oil tankers carry crude as well as refined products. Your Company owns and operates Aframax tankers. The Aframax spot rates strengthened considerably during the fourth quarter of 2014, being highest for a fourth quarter since 2008. The rates remained strong during January – March 2015 also. The increase in tanker rates was primarily due to a combination of winter weather delays and the impact of lower global oil prices.

### 2.2 Opportunities and Threats

The outlook for Aframax tankers is expected to remain positive in 2015. This is based on a shrinking mid-size crude tanker fleet and increase in long-haul tanker demand as more crude oil moves from the Atlantic to Pacific basins. The impact of low prices and the development of floating storage in the first quarter of 2015 are also expected to support positive tanker demand in the first half of 2015. The increase in tanker rates have also resulted into increase in asset rates of takers in the second-hand market. The growth is driven by emerging markets mainly China and India, with the refinery margins on the rise.

The addition of new capacities in the tanker segment and adverse movement in crude prices in future may impact the high charter rate scenario and thereby the profitability of the ships owned by the Company.

### 2.3 Risks and Concerns

The shipping being global industry, the developments in the world economy are bound to have its bearing on this industry. The changes in spot rates, production and demand for oil or trading patterns may affect overall vessel tonnage requirements. New building orders and tanker scrapping also have impact on charter rates.

The declining demand for oil in OECD countries, Europe and Japan is an area of concern. Russia's financial turmoil and conflict driven geo-political situation in Libya, Yemen, Iraq and Ukraine continues to be another major concern.

### 2.4 Outlook

Global oil demand is projected to rise at a slightly faster pace than that in 2014. There is positive outlook on account

of Asian growth although there is downward pressure due to contracting demand from Japan and Former Soviet block.

The demand for crude tanker tonnage is expected to increase in the year 2015 slightly over 2%. Overall, crude tanker demand growth is expected to be driven by increased demand for Very Large Crude Carriers and Suezmax tankers.

## 2.5 Financial and Operational Performance

The summarized performance of Shipping Division during the year was as under;

Particulars	2014-15	2013-14
Sales (Rs. in crore)	721.44	589.28
EBIDTA (Rs. in crore)	128.24	105.50

## 2.6 Material Developments in Human Resources development/Industrial Relations

Human Resources continue to be the thrust area for the organization. The committed on-shore staff continuously provides prompt and efficient support and guidance to the floating staff which results in effective performance and operational efficiency at all times. The organization's focus and emphasis on Occupational Health and Safety, Quality and Protection of environment further drives the performance of its employees. Training programs for shipboard officials help in building an efficient and well-qualified cadre of experienced seafarers for our fleet. The shipping division had 66 employees in its shore office and 133 floating staff on-board as on March 31, 2015. The Employee relations remained cordial during the year.

## 3.0 BIRLA TEXTILE MILLS - SPINNING DIVISION

### 3.1 Industry Structure and Developments

Indian textiles industry is well-established with strong features and the country is the second biggest textiles manufacturer worldwide after China. India ranks third in cotton production and consumption and fifth in synthetic fibre and yarn.

### 3.2 Opportunities and Threats

The Union Budget 2015-16 did not augur well for the Textile Industry. With the reduction of fund allocation for Technology Up-gradation Fund Scheme (TUFS), the operation of TUFS in the ensuing financial year may run into problems.

After a setback that lasted a few months, textile sector is showing some improvement both in domestic and global markets. Cotton prices have stabilized and the steep decline in the prices of crude oil has made synthetic fibre more affordable. After going through a tough period of rise in input costs as well as interest cost, it is unlikely that the sector's outlook will turn positive until fundamental issues such as power shortage and capital investments are resolved.

### 3.3 Risks and Concerns

Incremental capital investments in debt reliant textile industry is expected to remain subdued given unwillingness of banks to lend to the sector coupled with higher cost of funds. The withdrawal of global retailers like Walmart from their joint venture with Indian partners is a huge setback for the textile sector. The ongoing economic slowdown in USA and consequent lower orders from retailers may result in lower capacity utilisation and impact profitability of textile companies in India.

The primary risk for Textile Industry is raw material prices, mainly cotton, which is the largest component of cost. Since cotton is an agri-produce, it suffers from climatic volatility in the major cotton producing countries. The availability of power at reasonable price and adequate skilled manpower are the other challenges for textile industry.

### 3.4 Outlook

The textile industry is very volatile with low profitability and to compete effectively, it should be aggressively expanded to achieve reasonable scale of operations. The land in factory premises is fully utilized and there is a no further scope for expansion at the current location. It was therefore thought prudent to sell the business. Subject to necessary approvals, it is proposed to sell the textile business on a going concern basis by way of slump sale to Sutej Textile and Industries Limited.

### 3.5 Operational and Financial Performance

Particulars	2014-15	2013-14
Yarn Production (MT)	19577	19780
Sale of Yarn (MT)	20232	18580
Sales (Rs. in Crore)	403.35	396.01
EBIDTA (Rs. in Crore)	31.91	42.94
Spindle Utilisation	94.25%	96%

### 3.6 Material development in human resources / industrial relations

Being a labour intensive industry, training and development of human resources is of paramount importance. The well-structured in-house training programmes conducted by experienced and competent faculty have improved the skill levels and the employee commitment. The results of the training efforts at the shop floor level have been excellent. Presently, the manpower deployments comprises of 1439 workers, 249 staff members and 216 trainees at Textile Division. Industrial relations remain cordial during the year.

## INTERNAL CONTROL SYSTEM

The Company has a strong internal control system comprising various levels of authorization, supervision, checks and balances and procedures through documented policy guidelines and manuals. The Internal Audit department regularly monitors the efficacy of internal controls and compliances with Standard Operating Procedures and Manuals with an objective of providing to the Audit Committee and the Board of Directors, an independent, objective and reasonable assurance that all transactions are authorized, recorded and reported correctly and compliance with policies and statutes are made.

The managers exercise their control over business processes through operational systems, procedure manuals and financial limits of authority manual. These processes are reviewed and updated on an 'on-going basis' to improve their efficacy and meet the business needs.

During the year, the internal audit was carried out by the internal audit team of the Company and M/s. Deloitte Haskins & Sells, LLP in clearly demarcated areas as per the approved audit plan. Internal Audit develops a risk based annual audit programme which is aligned to the previous year's observations, suggestions from

the operating managers and statutory auditors. The Internal audit programme is approved by the Audit Committee.

The audit approach is based on random sample selection and takes into consideration the generally accepted business practices. The internal audit reports are first discussed by the Management Committee and subsequently placed before the Audit Committee of the Board of Directors along with the direction/ action plan recommended by the Management Committee. The directions are implemented by the respective departments and Action Taken Report is placed before the Audit Committee.

The Internal Audit department also assesses opportunities for improvement in business processes, systems and controls, gives recommendations and reviews the implementation of directions issued by the management, Board of directors or its committees.

### CAUTIONARY STATEMENT

The report may contain certain statements that the Company believes are, or may be considered to be "forward looking statements" that describe its objectives, plans or goals. All these forward looking statements are subject to certain risks and uncertainties, including but not limited to Government action, economic development, risks inherent to the Company's growth strategy and other factors that could cause the actual results to differ materially from those contemplated by the relevant forward looking statements.

### REPORT ON CORPORATE GOVERNANCE

#### (1) Company's Philosophy

At Chambal, we firmly believe that maintaining high standards of corporate conduct towards its shareholders, customers, employees, all other stakeholders and society in general is paramount for sustained growth and success of the Company. The Company has always focused on good corporate governance, which is a key driver of sustainable corporate growth and long-term value creation for its shareholders. Corporate Governance aligns the interests of individuals, corporations and society and integrates all the participants involved in a process, which is not only economic but also social. Corporate Governance goes beyond the practices enshrined in the laws and encompasses the basic business ethics and values that need to be adhered to in letter and spirit.

The Company believes that corporate governance is not just limited to creating checks and balances. It is more about creating organizational excellence leading to increase in employee and customer satisfaction and shareholders' value. The Company believes in leveraging its resources to translate opportunities into reality, create awareness of corporate vision and inculcate dynamism and entrepreneurship at all levels.

Above all, corporate governance must balance individual interest with corporate goals and operate within accepted norms of propriety, equity, fair play and a sense of justice. Accountability, integrity and transparency are key drivers to improve decision-making and the rationale behind such decisions, which in turn creates stakeholder confidence.

Subject to the adequacy of the profits and approval of the Shareholders, the Company may pay commission to the Non-Executive Directors of the Company.

The Board shall determine appropriate criterion for payment of commission to Non-Executive Directors which may include the time devoted by the directors for the business of the Company, contribution made by the director in the functioning of the Company, etc.

#### 4.3 Other KMPs and Employees

CFCL has three businesses viz. Fertilisers & other Agri-inputs, Textile and Shipping. Each business has a unique requirement of talent, qualification and skill sets. Accordingly, the payment structure and salary levels are aligned keeping in view the particular industry requirement. Each business division has its own policies pertaining to perquisites and benefits including retirement benefits which are designed as per the industry practice, business needs or other factors related to such business.

The Human Resource Department undertakes review of the Remuneration through periodic benchmarking exercises, surveys and market trends. The various Remuneration components are combined to ensure an appropriate and balanced Remuneration package depending upon the level of employee, job profile, performance, future potential and other relevant variables.

The Remuneration of Senior Management personnel and other employees are based on the following fundamental principles:

- Demand-supply relationship of the concerned job expertise.
- Need of organization to retain and attract talent and its ability to pay.
- Employees' social aspiration for enhancing standard of living.
- Compensation trends in the industries in which the Company operates.

The compensation of Senior Management personnel comprises of fixed component as well as performance based incentives apart from perquisites and benefits including retirement benefits. While approving the increment and performance incentive of Senior Management personnel, the Committee shall strike a balance between fixed and variable pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The Remuneration package of other employees depends upon the nature of business, job profile and other factors mentioned above. Apart from fixed component, the package may include one or more variable components such as performance based incentives, annual bonus, production linked bonus, etc., as the case may be.

The Company has also granted Employees Stock Options to the KMPs and employees above a certain level in the Fertiliser & Agri-Inputs division of the Company.

- vii) Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:

- a) Average increase in salary of employees in the Financial year 2014-15 other than managerial personnel : 9.55%  
b) Percentage increase in the remuneration of Managing Director- 13.09%

The increase in remuneration of Managing Director includes the impact of higher leave encashment during the Financial Year 2014-15 and the net increase works out to 11.36% after eliminating the impact of leave encashment. Despite the tough market scenario during the Financial Year 2013-14, the Managing Director steered the Company ahead and maintained the market share of the Company in the Fertilisers segment. The growth in revenue and profit before tax has been achieved despite various challenges.

- viii) Comparison of the remuneration of each Key Managerial Personnel (KMP) against the performance of the company:

Name & Designation	Remuneration of KMPs (Rs. in Lac)			Increase in Revenue of the Company (%)	Increase in Profit before Tax of the Company (%)

Total	456.12	513.01	12.47		

- ix) The key parameters for any variable component of remuneration availed by the Managing Director:

The Performance Bonus payable by the Company to Managing Director is decided by the Board/ Nomination and Remuneration Committee on annual basis. The performance bonus is decided based on the factors like performance of the Company in terms of revenue, profitability, market expansion, overall market scenario, etc.

- x) The ratio of the remuneration of the highest paid director to that of the employees who are not directors but receive remuneration in excess of the highest paid director during the year: No such case

It is hereby affirmed that that the remuneration given to all employees, Directors and Key Managerial Personnel is as per the remuneration policy of the company.

B) Information pursuant to Section 197 of the Companies Act, 2013 read with the Rule 5(2) & (3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014.

The Company has calculated the employee compensation cost using the intrinsic value of stock options. If the employee compensation cost was calculated using fair value of options based on Black Scholes methodology, total cost to be recognised in the Financial Statements for the Financial Year 2014-15 would be higher by Rs. 49.92 lac. Other details of the Employees Stock Option Scheme are given in the Notes to the Financial Statements.

The CFCL Employees Stock Option Scheme 2010 ("ESOS 2010") is administered by CFCL Employees Welfare Trust ("Trust"). The Trustee of the Trust is holding 22,53,402 equity shares (0.54% of the paid up share capital) of the Company for the purpose of ESOS 2010. The ownership of these shares cannot be attributed to any particular employee till he / she exercises the options granted to him. Hence, the concerned employees to whom the stock options were granted under ESOS 2010 cannot exercise voting rights in respect of shares held by the Trustee of the Trust as such employees are not holders of such shares.

The Trustee has not exercised the voting right in respect of the aforesaid shares in the Annual General Meeting of the Company held during the Financial Year 2014-15.

## INDEPENDENT AUDITOR'S REPORT

To the Members of Chambal Fertilisers and Chemicals Limited

### Report on the Financial Statements

We have audited the accompanying standalone financial statements of Chambal Fertilisers and Chemicals Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, in which are incorporated the returns for the year ended on that date audited by the branch auditors of the Company's Shipping Division at Kolkata.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2015, its profit, and its cash flows for the year ended on that date.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure 1 a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from branches not visited by us;

#### Annexure referred to in paragraph under the heading "Report on Other Legal and Regulatory requirements" of our report of even date

Re: Chambal Fertilisers and Chemicals Limited ('the Company')

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) Fixed assets have been physically verified by the management during the year based on a phased programme of verifying all the assets over a period of two years, which in our opinion is reasonable having regard to the size of the Company and the nature of its fixed assets. No material discrepancies were noticed on physical verification.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year.
- (b) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory and no material discrepancies were noticed on physical verification.
- (iii) (a) The Company has granted loan (brought forward from last year) to three companies covered in the register maintained under Section 189 of the Companies Act, 2013. In respect of loan granted, repayment of the principal amount is as stipulated and payment of interest has been regular.
- (b) There is no overdue amount of loan granted to companies, firms or other parties listed in the register maintained under Section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory and fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any major weakness or continuing failure to correct any major weakness in the internal control system of the company in respect of these areas.
- (v) The Company has not accepted any deposits from the public.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under Section 148(1) of the Companies Act, 2013, related to the manufacture of urea, SSP, cotton yarn and synthetic yarn and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- (vii) (a) (i) The Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, duty of customs, duty of excise, value added taxes, cess and any other statutory dues applicable to it.
- (ii) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, duty of customs, duty of excise, value added taxes, cess and any other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) According to the records of the Company, the dues outstanding of income-tax, sales-tax, wealth-tax, service tax, duty of customs, duty of excise, value added tax and cess on account of any dispute, are as follows:

Name of the Statute	Nature of the Dues	Amount (Rs. in lacs)	Period to which the amount relates	Forum where dispute is pending

(c) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company

- (viii) The Company has no accumulated losses at the end of the financial year and it has not incurred any cash losses in the current and immediately preceding financial year.
- (ix) Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of dues to any bank. The Company did not have any outstanding debentures and loan from financial institution during the year.
- (x) According to the information and explanations given to us, the Company has given guarantee for loans taken by others from banks, the terms and conditions whereof, in our opinion, are not prima-facie prejudicial to the interest of the Company. According to the information and explanations given to us, the Company has not given any guarantee for loans taken by others from financial institutions.
- (xi) Based on the information and explanations given to us by the management, term loans were applied for the purpose for which the loans were obtained.
- (xii) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given by the management, we report that no fraud on or by the Company has been noticed or reported during the year.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2015

### 1. Corporate Information

The Company is one of the largest manufacturer of Urea in private sector in India and is also into the trading of fertilisers and other agri inputs. The Company is also into manufacturing of Synthetic and Cotton Yarn. Shipping Division of the Company is engaged in the business of running of ships for cargo.

### 2. Basis of Preparation

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rule 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention except for derivative financial instruments and investment acquired in exchange for another asset which have been measured at fair value.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below.

#### 2a) Summary of significant Accounting Policies

##### i) Change in Accounting Policy

Till the year ended 31 March 2014, Schedule XIV to the Companies Act, 1956, prescribed requirements concerning depreciation of fixed assets. From the current year, Schedule XIV has been replaced by Schedule II to the Companies Act, 2013. Considering the applicability of Schedule II, the management has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets, although these rates in certain cases are different from lives prescribed under Schedule II. The Company was previously not identifying components of fixed assets separately for depreciation purposes; rather, a single useful life was used to depreciate each item of fixed asset. Due to application of Schedule II to the Companies Act, 2013, the Company has changed the manner of providing depreciation on its fixed assets. Now, the Company identifies and determines separate useful life for each major component of the fixed asset, if they have useful life that is materially different from that of the remaining asset. The Company has used transitional provisions of Schedule II to adjust the impact of component accounting arising on its first application. If a component has zero remaining useful life on the date of Schedule II becoming effective, i.e., 1 April 2014, its carrying amount, after retaining any residual value, is charged to the opening balance of retained earnings. The carrying amount of other components, i.e., components whose remaining useful life is not NIL on 1 April 2014, is depreciated over their remaining useful life.

Had the Company continued to use the earlier policy of depreciating fixed asset, the profit for the current year would have been lower by Rs. 3986.58 lacs (net of tax impact of Rs. 2052.78 lacs) (including Rs. 732.10 lacs towards change in residual value of ships from NIL to 5%), retained earnings at the beginning of the current year would have been higher by Rs. 1269.02 lacs (net of tax impact of Rs. 653.42 lacs) and the fixed assets would correspondingly have been lower by Rs. 4116.92 lacs.

##### ii) Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

##### iii) Tangible Fixed Assets

Fixed assets, are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred except when significant parts of fixed assets are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. Any trade discounts and rebates are deducted in arriving at the purchase price.

The Company adjusts exchange differences arising on translation/settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset. In accordance with MCA circular dated August 09, 2012, exchange differences adjusted to the cost of fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### iv) Depreciation on Tangible Fixed Assets

Depreciation is provided using Straight Line Method as per the useful life of the asset estimated by the management which are equal to the useful life prescribed under Schedule II to the Companies Act, 2013 other than the cases as mentioned in para (i) to (viii) below where the useful life is different from those prescribed in Schedule II to the Companies Act, 2013. A major portion of the plant at Fertiliser division of the Company has been considered as continuous process plant.

S. No.	Assets	Useful lives
(i)	Second hand fixed assets at Textile division	On technically assessed remaining useful lives of such assets ranging from 3 to 7 years.
(ii)	- Leasehold Land - Leasehold Improvement - Assets under finance lease	Amortised over 99 Years Ranging from 4 to 15 Years Ranging from 3 to 9 Years These assets are amortised over the period of respective leases or useful life of assets, whichever is lower.
(iii)	Insurance/ Machinery Spares	Over the remaining useful lives of mother assets ranging from 1 to 18 years.
(iv)	Ships of Shipping Division	25 years based on the technical evaluation, as the ships are double hull crude oil/product tankers the life is estimated to be 25 years, as such kind of ships are allowed for acquisition without technical clearance and further charter-in of such ships are permitted subject to CAP2 (condition assessment program) rating provided the life is below 25 years.
(v)	Vehicles	Depreciated over 5 years. After the expiry of 5 years, the vehicle gets normally replaced.
(vi)	Railway Siding	25 years based on technical evaluation that the railway siding is currently in use.
(vii)	Plant and Machinery at Textile division	9.19 years based on the technical assessment carried out by the management.
(viii)	Certain Plant & Machinery of fertiliser division	On technically assessed remaining useful life of such assets ranging from 1 to 2 years.

Assets costing below Rs.5,000 are depreciated in the year of purchase.

#### v) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over the estimated useful economic life. The following are the acquired intangible assets:

Software

Cost of software is amortized over their estimated useful life of five years on straight line basis.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS-5, "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies".

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### vi) Impairment of tangible and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available, and if no such transactions can be identified an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's CGU's to which the individual assets are allocated. These budgets and forecast calculations are generally cover a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

#### vii) Leases

Finance leases, which effectively transfer to the Company substantially, all the risk and benefits incidental to the ownership of the leased item,

are capitalized at inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule II to the Companies Act, 2013, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule II to the Companies Act, 2013.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

#### viii) Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/ subsidy will be received.

Where the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

#### ix) Investments

Investments, which are readily realizable and intended to be held for not more than a year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

#### x) Inventories

Inventories are valued as follows:

Bunkers remaining on board*	Lower of cost and net realizable value. Cost is determined on weighted average basis.
Spares and Lubricants	Lower of cost and net realizable value. Cost is determined on First -In -First -Out basis.
Naphtha, Raw materials, Packing materials, other stores and spares	Lower of cost and net realizable value. However, materials and other items held for use in the production of finished goods are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis.
Catalyst in Use	At depreciated cost on the basis of amortization over their estimated useful lives ranging from three to fifteen years as technically assessed.
Loose Tools	At depreciated cost arrived at on the basis of amortization over a period of three years.
Work in Process and Finished Goods	Lower of cost and net realizable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of Finished goods includes excise duty where ever applicable. Cost is determined on a weighted average basis.
Traded products	Lower of cost and net realizable value. Cost includes the cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
Waste	At net realisable value.

\*included under the inventory of stores and spares.

Net Realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### xi) Borrowing Costs

Borrowing costs include interest and amortization of ancillary costs incurred in connection with the arrangement of borrowing.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

---

## xii) Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific criteria must also be met before revenue is recognised:

### (a) Sale of Goods

Revenue, including subsidy, in respect of sale of products is recognised when the significant risks and rewards of ownership of the goods are passed on to the buyer. Excise Duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability accruing during the year. The Company collects Sales Tax and VAT on behalf of Government and therefore, these are not economic benefits flowing to the Company. Hence, these are excluded from the revenue.

Subsidy on Urea is recognized based on Concession price including freight as notified under the New Pricing Scheme (NPS-Stage III), Uniform Freight Policy and New Investment Policy 2008. The concession price and freight is accounted based on notified prices, further adjusted for input price escalation/ de-escalation and as estimated by the management based on the prescribed norms in line with known policy parameters.

Subsidy on Phosphatic and Potassic (P&K) fertilizers is recognized as per concession rates notified by the Government of India and the estimates by the management, in accordance with Nutrient Based Subsidy Policy from time to time. Freight subsidy has been accounted for as per the Uniform Freight Policy.

Subsidy on Gypsum is recognized based on district wise concession rates, as notified by the Government of Rajasthan.

### (b) Income from operations of Ships

In respect of voyage charter, revenue is recognized on proportionate number of days of respective voyage. In case of time charter (including cost plus charter), revenue is recognized on time proportion basis.

### (c) Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head 'other income' in the statement of profit and loss. Further, interest on delayed payment from customers are accounted on accrual basis to the extent these are measurable and ultimate collection is reasonably certain.

### (d) Dividend

Dividend income is recognized when the Company's right to receive dividend is established by the reporting date.

### (e) Insurance Claims

Claims receivable on account of insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.

### (f) Export Benefits

Export benefits under Duty Drawback Scheme, Focus Market Scheme, Status holder incentive scheme and Focus Product Scheme are accounted for in the year of export of goods.

## xiii) Foreign Currency Translation

### (a) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

### (b) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are, translated using the exchange rates that existed when such values were determined.

### (c) Exchange differences

The Company accounts for exchange differences arising on translation / settlement of foreign currency monetary items as below:

- i) Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset.
- ii) Exchange differences arising on other long-term foreign currency monetary items are accumulated in the 'Foreign Currency Monetary Item Translation Difference Account' and amortized over the remaining life of the concerned monetary item.
- iii) All other exchange differences are recognized as income or as expense in the period in which they arise.

For the purpose of i) and ii) above, the Company treats a foreign currency monetary item as "long-term foreign currency monetary item", if it has a term of 12 months or more at the date of its origination. In accordance with MCA circular dated 09 August 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period.

(d) **Forward exchange contracts not intended for trading or speculation purposes**

The premium or discount arising at the inception of forward exchange contract is amortized and recognized as an expense / income over the life of the contract. Exchange differences on such contracts, except the contract which are long-term foreign currency monetary items, are recognized in the statement of profit and loss in the period in which the exchange rates change. Any profit or loss arising on calculation or renewal of such forward exchange contract is also recognized as income or as expense for the period. Any gain/loss arising on forward contracts which are long-term foreign currency monetary items is recognized in accordance with paragraph (c) (i) above.

xiv) **Retirement and other employee benefits**

(a) Retirement benefit in the form of Provident Fund is a defined benefit obligation in case of fertiliser and shipping division of the Company and is provided for on the basis of actuarial valuation on projected unit credit method made at the end of each financial year. The difference between the actuarial valuation of the provident fund of employees at the year-end and the balance of own managed fund is provided for as liability in the books. Any excess of plan asset over projected benefit obligation is ignored as such surplus is distributed to the beneficiaries of the trust.

Provident Fund in respect of Textile division of the Company and Pension Fund of all divisions of the Company are defined contribution scheme. The division has no obligation, other than the contribution payable to the provident fund. The division recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

(b) Superannuation Fund is a defined contribution scheme. Liability in respect of Superannuation Fund to the concerned employees of Fertiliser and Shipping division is accounted for as per the Company's Scheme and contributed to Life Insurance Corporation of India (LIC) / ICICI Prudential Life Insurance Company Limited (ICICI) every year. The divisions do not have any other obligation, other than the contribution payable to the superannuation fund. The divisions recognize contribution payable to the superannuation fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

(c) Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. However, in respect of Fertiliser division, the Company has taken policies from LIC, ICICI and Birla Sunlife Insurance Company Limited (BSLI) and for Shipping and Textile divisions, the Company has taken a policy from LIC to cover the gratuity liability of the employees. The difference between the actuarial valuation of the gratuity of employees at the year-end and the balance of funds with LIC, ICICI and BSLI is provided for as liability in the books.

(d) Retirement benefit in the form of post retirement medical benefits is a defined benefit obligation in case of fertiliser division of the Company and is provided for on the basis of actuarial valuation on projected unit credit method made at the end of each financial year.

(e) Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

(f) The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

xv) **Income Taxes**

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may

---

be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income, will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

#### xvi) Segment Reporting Policies

##### Identification of segments

The Company's operating businesses are organized and managed separately according to the nature of products manufactured, traded and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the locations of customers.

##### Allocation of common costs

Common allocable costs are allocated to each segment in proportion to the relative sales of each segment.

##### Unallocated items

All the common income, expenses, assets and liabilities, which are not possible to be allocated to different segments, are treated as unallocated items.

##### Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting financial statements of the Company as a whole.

#### xvii) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of the equity shares outstanding during the year.

For the purpose of calculating diluted earning per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

#### xviii) Provisions

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting period and adjusted to reflect the current best estimates.

#### xix) Cash and Cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

#### xx) Derivative Instruments

In accordance with the ICAI Announcement, derivative contracts, other than foreign currency forward contracts covered under Accounting Standard 11, are marked to market on a portfolio basis, and the net loss, if any, after considering the offsetting effect on the underlying hedge item, is charged to the Statement of Profit and Loss and the net gain, if any, is ignored.

#### xxi) Employee Stock Option Scheme

Measurement and disclosure of the employee stock option scheme is done in accordance with Securities and Exchange Board of India (Share based employee benefits) regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India. The Company measures compensation cost relating to employee stock options using the intrinsic value method. Compensation expense is amortized over the vesting period of the option on a straight line basis.

#### xxii) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in

extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

**xxiii) Basis of classification of Current and Non Current**

Assets and Liabilities in the balance sheet have been classified as either current or non-current based upon the requirements of Schedule III to the Companies Act, 2013.

An asset has been classified as current if (a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is expected to be realized within twelve months after the reporting date; or (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date. All other assets have been classified as non-current.

A liability has been classified as current when (a) it is expected to be settled in the Company's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is due to be settled within twelve months after the reporting date; or (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. All other liabilities have been classified as non-current.

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

Notes:

1. \* In pursuance of the voluntary liquidation of CFCL Overseas Limited (COL), Cayman Island all the assets of COL (including the shares, warrants and convertible notes held by COL in CFCL Technologies Limited) were transferred in favour of the Company (sole shareholder of COL) on March 25, 2015. The aforesaid assets have been accounted for in the books of the Company based on the fair value, which was lower than the carrying value of the investment in COL. Accordingly, a loss of Rs. 10702.09 lacs has been accounted for as loss on liquidation of subsidiary company in the statement of profit and loss and same has been shown under 'Exceptional item' in note no 30 to the financial statement.

The holdings of COL in CTL transferred, in pursuance of voluntary liquidation comprises of ordinary shares, preference shares (series A1, B1, C1, D1, E1, F, G & H) and warrants for ordinary shares and preference shares (series G & H).

Conversion ratio of different series of non cumulative convertible preference shares into ordinary shares of CTL are as follows-Series A1, & B1 will be converted in the ratio of 1:1.22, Series C1, D1, E1 will be converted in the ratio of 1:1.68, Series F1 will be converted in the ratio of 1:1.33 and Series G and H will be converted in the ratio of 1:1, This conversion is subject to adjustments set forth, if any, in the Articles of Association of CTL.

The Company has given corporate guarantee of Rs.13751.10 lacs (Previous year Rs.13182.40 lacs) to a bank on account of loan given by bank to step-down subsidiaries of CTL. The Company has further provided letter of continued financial support to the said company.

2. \*\* includes 4,500,000 equity share of Rs. 10 each fully paid up for which share certificates are yet to be issued by the said company.

3. \$ During the year, Company has made investment of Rs. 3000.00 lacs in Upper Ganges Sugar & Industries Limited (UGSIL). As per the latest financial statement of UGSIL, their accumulated losses have resulted in erosion of significant portion of the net worth. This being long term strategic investment and also in view of projected profitable operations of the company in near future, in the opinion of the management no provision of diminution in the value of investment required to be made as per Accounting Standard 13 "Accounting for Investments".

- (b) The Company had received a demand of Rs.352.34 lacs (Previous year Rs.352.34 lacs) from Sales Tax Department, Kota in an earlier year towards use of natural gas for ammonia fuel, power and steam generation for the period April, 1996 to May, 2001. The Company has obtained a stay from Hon'ble High Court of Rajasthan, Jodhpur on 11th July, 2001. However, in the event of the Company having to pay the above, it is reimbursable by Fertiliser Industry Coordination Committee (FICC) of Ministry of Chemicals and Fertilisers, the Government of India under Subsidy Scheme.
- (c) The Company as well as other users of natural gas under HBJ Gas Pipeline had in earlier years received letters from GAIL (India) Limited (erstwhile Gas Authority of India Ltd), informing about the possibility of levy of excise duty on natural gas (presently not levied) with retrospective effect. The amount of such levy is not ascertainable. However, in the event of its levy, it is reimbursable by Fertiliser Industry Coordination Committee (FICC) of Ministry of Chemicals and Fertilisers, the Government of India under Subsidy Scheme.
- (d) The Company as well as other users of Natural Gas under HBJ Gas Pipeline had received a letter in an earlier year from GAIL (India) Limited (erstwhile Gas Authority of India Ltd), informing about the possibility of levy of Central Sales Tax. The Company has been taking the delivery of Gas in the State of Rajasthan and has been accordingly paying Rajasthan Sales Tax on the supply. Therefore, the Company feels that no Central Sales Tax is payable by it. Further, the amount of such levy is not ascertainable. However, in the event of its levy, it is reimbursable by Fertiliser Industry Coordination Committee (FICC) of Ministry of Chemicals and Fertilisers, the Government of India under Subsidy Scheme.
- (e) Under the Jute Packaging Material (Compulsory use of Packing Commodities) Act, 1987, a specified percentage of fertilisers dispatched were required to be supplied in Jute bags up to 31.8.2001. The provisions of the said Act were challenged in the Supreme Court, which upheld the constitutional validity of this Act in its judgment in 1996. In spite of making conscious efforts to step up use of jute packaging material, the Company had been unable to adhere to the specified percentage, due to strong customer resistance to use of jute bags. The Company had received show cause notice from the Office of the Jute Commissioner, Kolkata, for levying a penalty of Rs.7380.36 lacs (Previous year Rs.7380.36 lacs) for non compliance of the provisions of the said Act. The Company has obtained a stay order from Delhi High Court against the above show cause notice and has been advised that the said levy is not tenable in law and accordingly no provision has been considered.

Based on favorable decisions in similar cases, legal opinion taken by the Company, discussions with the solicitors, etc., the Company believes that there is fair chance of decisions in its favour in respect of all the items listed in (a) (ii) to (vi) and (b) to (e) above and hence no provision is considered necessary against the same.

**32 (B) The Company is involved in various litigations, the outcomes of which are considered probable, and in respect of which the Company has made aggregate provision of Rs.15050.73 lacs as at March 31, 2015.**

### 35 Segment Information

#### Primary Segment : Business Segment

The Company has identified the business segment as its primary reportable segment as the Company's risks and rates of return are affected predominantly by differences in the products and services produced.

The Company's operating businesses are organized and managed separately according to the nature of products manufactured, traded and services provided. The three identifiable reportable segments are viz. Fertilisers and other Agri inputs, Textile and Shipping. A description of the types of products and services provided by each reportable segment is as follows:

Fertilisers and other Agri-inputs segment includes manufacture and marketing of Urea, SSP and purchase and sale of Fertilisers and Agricultural inputs. During the beginning of financial year, the Company has changed the policy of reporting of its segment information. The segment information is now being reported into three business segments (Fertilisers and other Agri-inputs, Shipping and Textile) by merging 'Own manufactured Fertiliser' and 'Traded Goods' segments into one business segment, namely Fertilisers and other Agri-inputs. The change has been made to reflect the Company's segment revenue, results and capital employed more appropriately as it caters to the same geography, market, customers and needs of the farmers. The new segment information namely Revenue, Results and Capital Employed is derived by a simple arithmetic additions of the aforesaid particulars of the consolidating segments and as such there is no financial effect of the change.

Textile segment includes manufacturing and sale of synthetic and cotton yarn.

Shipping segment includes transportation of crude oil and liquid products through vessels owned and/ or hired by the Shipping Division.

The following table presents segment revenue, results, assets & liabilities in accordance with AS-17 as on March 31, 2015

### 36 Gratuity and other Post Employment Benefit Plans:

#### (a) Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure @ 15 days (15 to 30 days in case of Shipping Division) salary (last drawn salary) for each completed year of service. The Scheme is funded with insurance companies in the form of a qualifying insurance policies except in the case of crew employees of the Shipping division.

#### (b) Provident Fund

The Company has set up provident fund trusts, which are managed by the Company in respect of Fertiliser and Shipping division of the Company and as per the Guidance Note on implementing AS-15, Employee Benefits (revised 2005) issued by the Accounting Standard Board (ASB), provident funds set up by employers, which requires interest shortfall to be met by the employer, needs to be treated as defined benefit plan. The actuarial valuation of Provident Fund was carried out in accordance with the guidance note issued by Actuarial Society of India and provided the interest shortfall of Provident Fund liability in the books of accounts.

The following tables summarise the components of net benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the balance sheet for the respective plans.

The Company expects to contribute Rs.320.15 lacs (Previous year Rs.269.76 lacs (approx.)) and Rs.425.00 lacs (Previous year Rs.360.00 lacs (approx.)) to gratuity trust fund and provident fund trust respectively in the financial year 2015-16.

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

Particulars	2014-15	2013-14
Investments with insurers/Government securities	100.00	100.00

The overall expected rate of return on assets is determined based on the market prices prevailing on that date, applicable to the period over which the obligation is to be settled.

The principal assumptions used in determining gratuity and trust managed fund for the Company's plans are shown below:

Particulars	Trust Managed Provident Fund		Gratuity	
	2014-15	2013-14	2014-15	2013-14
Discount rate (%)	8 to 8.75	8.75	8.00	8.50

#### 44 Employees Stock Option Scheme

In terms of approval of shareholders accorded at the Annual General Meeting held on 27th August, 2010 and in accordance with Securities and Exchange Board of India (Employee Stock Option Scheme & Employee Stock Purchase Scheme) Guidelines, 1999, (SEBI Guidelines) the Company formulated CFCL Employees Stock Option Scheme, 2010 ("Plan") for specified categories of employees and managing director of the Company. The Nomination and Remuneration Committee comprising of majority of independent directors administer the Plan. As per the Plan, 41,62,000 Stock Options can be issued to managing director and other specified categories of employees of the Company. The options are to be granted at market price. As per SEBI Guidelines, the market price is taken as the closing price on the day preceding the date of grant of options, on the stock exchange where the trading volume is the highest. Each option, upon vesting, shall entitle the holder to acquire 1 equity share of Rs.10. Details of the scheme are as under:

#### Stock Options granted

The weighted average fair value of stock options granted till date is Rs.28.40 per option (Previous year Rs.28.40 per option). The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

Particulars	Tranche 1	Tranche 2	Tranche 3	Tranche 4	Tranche 5
Weighted average share price (Rs.)	73.50	76.85	82.90	101.10	69.40
Exercise Price (Rs.)	73.50	76.85	82.90	101.10	69.40

Average risk-free interest rate	7.79%	8.05%	8.21%	8.29%	8.47%
Expected dividend yield	7.02%	7.02%	5.77%	5.77%	4.62%

The expected volatility was determined based on historical volatility data. For calculating volatility, the Company has considered the daily volatility of the stock prices of the Company on National Stock Exchange over a period prior to the date of grant, corresponding with the expected life of the options.

Since the Company used the intrinsic value method, the impact on the reported net profit and earnings per share by applying the fair value based method.

In March 2005, the ICAI has issued a guidance note on "Accounting for Employees Share Based Payments" applicable to employee based share plan, the grant date in respect of which falls on or after April 1, 2005. The said guidance note requires the Proforma disclosures of the impact of the fair value method of accounting of employee stock compensation in the financial statements. Applying the fair value based method defined in the said guidance note, the impact on the reported net profit and earnings per share would be as follows:

- 46 Pending receipt of appeal effect orders for the assessment years where appeals have been decided in favour of the Company by the Commissioner of Income Tax (Appeals) and/ or Income Tax Appellate Tribunal, interest on income tax refund has not been recognized thereof as the amount is presently not reasonably determinable. Interest income on this refund shall be recognized in the year the appeal effect order is received from Income Tax Department.
- 47 The Deferred Tax charge and dividend distribution tax for the current year ended March 31, 2015 includes additional charge of Rs.760.85 lacs and Rs. 28.75 lacs respectively. This is due to increase in rate of surcharge of income tax as proposed in the Finance Bill, 2015.
- 48 Based on the favourable decision by Income Tax Appellate Tribunal (ITAT) and CIT (Appeals), the Company had, during the previous year, reversed the amount of provision for Income Tax relating to Section 80-IA of Income Tax Act, 1961 for various years aggregating to Rs. 5975.82 lacs. The same was shown as Income tax credit related to earlier years.
- 49 The Company had during the previous year consolidated the financial statements of CFCL Employees Welfare Trust ('Trust') with the standalone financial statements of the Company as per the opinion of Expert Advisory Committee (EAC) of Institute of Chartered Accountant of India (issued in the month of March 2014). The Trust had acquired in the past equity shares of the Company from the secondary market for transfer to the eligible employees as per the CFCL Employees Stock Option Scheme of the Company. Consequently, the Shareholders' Funds of the Company had been adjusted by Rs.1656.92 lacs i.e. (a) downward adjustment in share capital by Rs.225.34 lacs being the face value of 2,253,402 equity shares held by the Trust, (b) downward adjustment in reserves by Rs.1518.79 lacs representing the purchase price in excess of face value of such equity shares; and (c) increase in reserves by Rs.87.21 lacs towards the accumulated profits of the Trust till 31.03.2013 and dividend received by the Trust during the year 2012-13. Further, the amount of loan of Rs.1665.10 lacs outstanding in the name of Trust in the books of the Company as at 31.03.2014 had been eliminated against the amount of loan outstanding in the name of Company appearing in the books of Trust as at 31.03.2014.

50 Discontinuing operation

In view of the Company's strategy to focus more on its core business, Board of Directors of the Company at its meeting held on March 14, 2015, inter alia, has approved the transfer of its textile business i.e. Birla Textile Mills (non core business) located in Himachal Pradesh, to Sutlej Textiles and Industries Limited, as a going concern on slump sale basis w.e.f. April 01, 2015 at a consideration not less than the book value of assets. The aforesaid transaction is subject to requisite approvals as may be required. Further, the Company has already received a sum of Rs. 500 lacs as an advance towards the aforesaid sale.

The following statement shows the revenue and expenditure of the discontinuing operation of Birla Textile Mills:

## INDEPENDENT AUDITOR'S REPORT

To the Members of Chambal Fertilisers and Chemicals Limited

### Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Chambal Fertilisers and Chemicals Limited ("the Company") and its subsidiaries as referred to in Section 129 (3) of the Companies Act 2013 ("the Act"), which comprise the consolidated Balance Sheet as at March 31, 2015, the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company and its subsidiaries in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the Company and its subsidiaries are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the respective assets of the Company and its subsidiaries and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Company as at March 31, 2015, its consolidated profit, and its consolidated cash flows for the year ended on that date.

### Report on Other Legal and Regulatory Requirements

As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;

### Other Matter

The accompanying consolidated financial statements include total assets of Rs.191096.13 lacs as at March 31, 2015, total revenues and net cash inflows of Rs.156317.43 lacs and Rs.321.49 lacs respectively for the year ended on that date, in respect of certain subsidiaries, joint venture, Shipping division and CFCL Employees Welfare Trust (Trust), which have been audited by other auditors, whose financial statements, other financial information and auditor's reports have been furnished to us. Our opinion, in so far as it relates amounts and disclosures included in respect of such subsidiaries, joint venture, Shipping division and Trust is based solely on the report of such other auditors. Our opinion is not modified in respect of this matter.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2015**
**1. Corporate Information**

The Group (defined hereunder) is one of the largest manufacturer of Urea in private sector in India and is also into the trading of branded fertilisers and other agri inputs. It also has a Joint venture for manufacturing of Phosphoric Acid in Morocco. Apart from that the Group is also engaged in manufacturing of Synthetic and Cotton Yarn, Shipping Business and Software business.

**2. (a) Basis of Preparation**

The Consolidated Financial Statements (CFS) of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act 2013, read with paragraph 7 of the Companies (Accounts) Rule 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention except for derivative financial instruments which have been measured at fair value.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year; except for the change in accounting policy explained below (refer section 2 (c)(i)).

The CFS relates to Chambal Fertilisers and Chemicals Limited (hereinafter referred as the "Company") and its Subsidiaries (hereinafter referred as the "Group").

**(b) Principles of Consolidation**

In the preparation of these Consolidated Financial Statements, investment in Subsidiaries, and Joint Venture have been accounted for in accordance with Accounting Standard (AS) 21, Consolidated Financial Statements, and Accounting Standard (AS) 27, Financial Reporting of Interests in Joint Ventures. The Consolidated Financial Statements have been prepared on the following basis:

- i. Subsidiaries have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses, after eliminating all significant intra-group balances and intra-group transactions and also unrealized profits or losses, except where cost cannot be recovered.
- ii. Interest in the assets, liabilities, income and expenses of the joint venture are consolidated using proportionate consolidation method. Intra group balances, transactions and unrealized profits / losses are eliminated to the extent of Company's proportionate share.
- iii. The difference of the cost to the Company of its investment in subsidiaries and joint venture over its proportionate share in the equity of the investee Company as at the date of acquisition of stake is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be.
- iv. Minorities' interest in net profit of consolidated subsidiaries for the year is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the holding Company.
- v. As far as possible, the CFS have been prepared using uniform accounting policies like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's stand alone financial statements. Differences in accounting policies have been disclosed separately.
- vi. The difference between the proceeds from disposal of investment in subsidiary and the carrying amount of its assets less liabilities as of the date of disposal is recognized in the consolidated Statement of Profit and Loss as the profit or loss on disposal of investment in subsidiary.
- vii. The accounts of all the Group entities are drawn up to the same reporting date as the parent entity (i.e. financial year ended March 31, 2015) except for the following entities where the audited accounts were drawn up as at December 31, 2014:

S. No.	Name of the entity	Relationship
(i)	Indo Maroc Phosphore S.A.	Joint Venture
(ii)	CFCL Technologies Limited and its subsidiaries	Subsidiary

Adjustments have been made for the period subsequent to that date for significant transactions, if any.

**(c) Summary of significant Accounting Policies**
**(i) Change in Accounting Policy**

Till the year ended 31 March 2014, Schedule XIV to the Companies Act, 1956, prescribed requirements concerning depreciation of fixed assets. From the current year, Schedule XIV has been replaced by Schedule II to the Companies Act, 2013. Considering the applicability of Schedule II, the management of Parent Company has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets, although these rates in certain cases are different from lives prescribed under Schedule II. The Parent Company was previously not identifying components of fixed assets separately for depreciation purposes; rather, a single useful life was used to depreciate each item of fixed asset. Due to application of Schedule II to the Companies Act, 2013, the parent company has changed the manner of depreciation for its fixed assets. Now, the Parent Company identifies and determines separate useful life for each major component of the fixed asset, if they have useful life that is materially different from that of the remaining asset. The Parent Company has used transitional provisions of Schedule II to adjust the impact of component accounting arising on its first application. If a component has zero remaining useful life on the date of Schedule II becoming effective, i.e., 1 April 2014, its carrying amount, after retaining any residual value, is

charged to the opening balance of retained earnings. The carrying amount of other components, i.e., components whose remaining useful life is not NIL on 1 April 2014, is depreciated over their remaining useful life.

Had the Parent Company continued to use the earlier policy of depreciating fixed asset, the profit for the current year would have been lower by Rs. 3986.58 lacs (net of tax impact of Rs. 2052.78 lacs) (including Rs. 732.10 lacs towards change in residual value of ships from NIL to 5%), retained earnings at the beginning of the current year would have been higher by Rs. 1269.02 lacs (net of tax impact of Rs. 653.42 lacs) and the fixed assets would correspondingly have been lower by Rs. 4116.92 lacs.

#### (ii) Use of Estimates

The preparation of financial statements in conformity with IGAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

#### (iii) Tangible Fixed Assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred except when significant parts of fixed assets are required to be replaced at intervals, the company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. Any trade discounts and rebates are deducted in arriving at the purchase price.

The Group adjusts exchange differences arising on translation/settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the asset and depreciates the same over the remaining life of the asset. In accordance with MCA circular dated August 09, 2012, exchange differences adjusted to the cost of fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### (iv) Depreciation on Tangible Fixed Assets

Depreciation is provided using Straight Line Method as per the useful life of the asset estimated by the management which are equal to the useful life prescribed under Schedule II to the Companies Act, 2013 other than the cases as mentioned in para (i) to (xi) below where the rate of depreciation is higher than those prescribed in Schedule II to the Companies Act, 2013. A major portion of the plant has been considered as continuous process plant.

S. No.	Assets	Useful life/rate
(i)	Second hand fixed assets at Textile division	On technically assessed remaining useful lives of such assets ranging from 3 to 7 years.
(ii)	- Leasehold Land - Leasehold Improvement - Assets under finance lease	Amortised over 99 Years Ranging from 4 to 15 Years Ranging from 3 to 9 Years These assets are amortised over the period of respective leases or useful life of assets, whichever is lower.
(iii)	Insurance/ Machinery Spares	Over the remaining useful lives of mother assets ranging from 1 to 18 years.
(iv)	Ships of Shipping Division	25 years based on the technical evaluation as the ships are double hull crude oil/product tankers the life is estimated to be 25 years, as such kind of ships are allowed for acquisition without technical clearance and further charter-in of such ships are permitted subject to CAP2 (condition assessment program) rating provided the life is below 25 years.
(v)	Vehicles	Depreciated over 5 years. After the expiry of 5 years, the vehicle gets normally replaced.
(vi)	Railway Siding	25 years based on technical evaluation that the railway siding is currently in use.
(vii)	Certain Plant and Machinery of fertiliser division	On technically assessed remaining useful life of such assets ranging from 1 to 2 years.
(viii)	Fixed Assets of software business	Computer Equipments and accessories- 3 years Office Equipments - 5 years Furniture and fixtures - 5 to 7 years
(ix)	Fixed Assets of IMACID (J.V.)	Office Equipments and Motor Vehicles - 7 to 10 years Plant & Machinery - 15 to 20 years
(x)	Fixed Assets of India Steamship Pte Ltd	Computer Equipments - 3 years Office Equipments - 8 years
(xi)	Plant and Machinery at Textile division	9.19 years based on the technical assessment carried out by the management.

Assets costing below Rs.5,000 are depreciated in the year of purchase.

#### v) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried

at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over the estimated useful economic life. The following are the acquired intangible assets:

#### *Software*

Cost of software is amortized over their estimated useful life of five years on straight line basis.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS-5, "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies".

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### *In respect of subsidiary company*

Intangible assets comprise of goodwill, costs relating to intellectual property rights, software development costs and software packages held for use in business.

Goodwill that arises on an amalgamation or on the acquisition of a business is presented as an intangible asset. Goodwill arising from amalgamation is measured at cost less accumulated amortisation and any accumulated impairment loss. Goodwill arising on acquisition of a business is measured at cost less any accumulated impairment loss. Goodwill arising on consolidation or acquisition is not amortized but tested for impairment atleast annually or as circumstances warrant at the reporting unit level. If impairment is indicated, a write-down to its recoverable amount which is higher of fair value or value in use (normally measured by discounting estimated future cash flows) is recorded.

Costs relating to Intellectual property rights, which are acquired, are capitalized and amortized over a period of 1 to 3 years.

#### **vi) Impairment of tangible and intangible assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available, and if no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's CGU's to which the individual assets are allocated. These budgets and forecast calculations are generally cover a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

#### **vii) Goodwill on Consolidation**

Goodwill represents the difference between the Group's share in the net worth of the investee companies and the cost of acquisition at each point of time of making the investment. For this purpose, the Group's share of equity in the investee companies are determined on the basis of the latest financial statements of the respective companies available as on the date of acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Goodwill is not amortized but tested for impairment almost annually. If impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded.

#### **viii) Leases**

##### *Where the Group is a lessee*

Finance leases, which effectively transfer to the Group substantially, all the risk and benefits incidental to the ownership of the leased item, are capitalized at inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule II to the Companies Act, 2013, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule II to the Companies Act, 2013.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

#### ix) Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/ subsidy will be received.

Where the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

#### x) Investments

Investments that are readily realizable and intended to be held for not more than a year from the date on which such investments made, are classified as current investments. All other investments are classified as long-term investment.

On initial recognition, all investments are measured at cost. The cost comprises of purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in the value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

#### xi) Inventories

Inventories are valued as follows:

Bunkers remaining on board*	Lower of cost and net realizable value. Cost is determined on weighted average basis.
Spares and Lubricants	Lower of cost and net realizable value. Cost is determined on First-In-First-Out basis.
Naphtha, Raw materials, Packing materials, other Stores and spares	Lower of cost and net realizable value. However, materials and other items held for use in the production of finished goods are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a weighted average basis.
Catalyst in Use	At depreciated cost on the basis of amortization over their estimated useful lives ranging from three to fifteen years as technically assessed.
Loose Tools	At depreciated cost arrived at on the basis of amortization over a period of three years.
Work in Process and Finished Goods	Lower of cost and net realizable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of Finished goods includes excise duty, where ever applicable. Cost is determined on a weighted average basis.
Traded products	Lower of cost and net realizable value. Cost includes the cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
Waste	At net realisable value.

\* included under the inventory of stores and spares.

Net Realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### xii) Borrowing Costs

Borrowing costs includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowing.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

#### xiii) Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific criterias must also be met before revenue is recognized:

##### (a) Sale of Goods

Revenue, including subsidy, in respect of sale of products is recognised when the significant risks and rewards of ownership of the goods are passed on to the buyer. Excise Duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability accruing during the year. The Group collects Sales Tax and VAT on behalf of Government and therefore, these are not economic benefits flowing to the Group. Hence, these are excluded from the revenue.

Subsidy on Urea is recognized based on Concession price including freight as notified under the New Pricing Scheme (NPS-Stage III), Uniform Freight Policy and New Investment Policy 2008. The concession price and freight is accounted based on notified prices, further adjusted for input price escalation/ de-escalation and as estimated by the management based on the prescribed norms in line with known policy parameters.

Subsidy on Phosphatic and Potassic (P&K) fertilizers is recognized as per concession rates notified by the Government of India and the estimates by the management, in accordance with Nutrient Based Subsidy Policy from time to time. Freight subsidy has been accounted for as per the Uniform Freight Policy.

Subsidy on Gypsum is recognized based on district wise concession rates, as notified by the Government of Rajasthan.

#### **(b) Income from operations of Shipping Division**

In respect of voyage charter, revenue is recognized on proportionate number of days of respective voyage. In case of time charter (including cost plus charter), revenue is recognized on time proportion basis. Bunker is recognized on actual quantity consumed. Dispatch money / demurrage is considered as part of freight.

#### **(c) Income from operations of Software business**

In respect of subsidiaries engaged in software development and business process outsourcing services, revenue is recognized as under:

- Revenue derived from professional services under the time and material contract is recognized as the related services are performed.
- Revenue from title and related operations are primarily transaction based and are recognized as revenue when services are performed, the fee is fixed or determinable, and collection is reasonably assured.
- Revenue from transaction services and other service contracts is recognized based on transactions processed. The Subsidiaries also generate upfront non-refundable revenues from process transition activities. Revenue and costs attributable to such process transition activities are deferred where such activities do not represent the culmination of a separate earnings process. Such revenue and related costs are recognized ratably over the period in which the related services are performed. Deferred costs are limited to the amount of deferred revenue and any excess costs are expensed as incurred.
- The Group also derives its revenues from software services and from business process outsourcing /knowledge process outsourcing services, provided either on time and material, fixed-price fixed-time frame and unit-price basis. Revenue with respect to time-and-material contracts is recognized as the related services are rendered and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenue. The Group's fixed price contracts include application maintenance and support services, on which revenue is recognized ratably over the period in which the services are rendered. Revenue with respect to other fixed price contracts, where there is no uncertainty as to measurement and collectability of consideration, is recognized on a percentage of completion basis. The input (cost expended) method has been used because management considers this to be the best available measure of progress on these contracts as there is a direct relationship between input and productivity. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved.
- Revenues from unit-priced contracts are recognized as transactions are processed based on objective measures of output. Cost and earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and earnings is classified as deferred revenue.
- Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates. When the Group receives advances for its services, such amounts are reflected as advance received from customers until all conditions for revenue recognition are met. The Group presents revenues net of service taxes and value added taxes, but gross of certain reimbursements in its consolidated statement of profit and loss.
- Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in case of multiple element contracts, under which post-contract maintenance and support services are also rendered by the Group. In the case of multiple element contracts, revenue from sale of user licenses is recognized on transfer of the title in the user license after appropriately reducing the fair value of the maintenance services to be recognised as revenues. Revenue from post contract maintenance and support services is recognized ratably over the period in which services are rendered.

#### **(d) Interest**

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head 'Other Income' in the statement of profit and loss. Further, interest on delayed payment from customers are accounted on accrual basis to the extent these are measurable & ultimate collection is reasonably certain.

#### **(e) Dividend**

Dividend income is recognized when the Company's right to receive dividend is established by the reporting date.

#### **(f) Insurance Claims**

Claims receivable on account of insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.

#### **(g) Export Benefits**

Export benefits under Duty Drawback Scheme, Focus Market Scheme, Status Holder Incentive Scheme and Focus Product Scheme are accounted for in the year of export of goods.

---

#### xiv) Foreign Currency Translation

##### (a) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

##### (b) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are translated using the exchange rates that existed when such values were determined.

##### (c) Exchange differences

The Group accounts for exchange differences arising on translation / settlement of foreign currency monetary items as below:

- i Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset.

Exchange differences arising on other long-term foreign currency monetary items are accumulated in the Foreign Currency Monetary Item Translation Difference Account' and amortized over the remaining life of the concerned monetary item.

- ii All other exchange differences are recognized as income or as expense in the period in which they occur.

For the purpose of 1 and 2 above, the Group treats a foreign monetary item as "long-term foreign currency monetary item", if it has a term of 12 months or more at the date of its origination. In accordance with MCA circular dated 09 August 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period.

##### (d) Forward exchange contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contract is amortized and recognized as an expense / income over the life of the contract. Exchange differences on such contracts, except the contracts which are long-term foreign currency monetary items, are recognized in the statement of profit and loss in the period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward exchange contract is also recognized as income or as expense for the period. Any gain / loss arising on forward contract which are long-term foreign currency monetary items is recognized in accordance with paragraph (c) (i) above.

##### (e) Translation of non-integral foreign operation

In translating the financial statements of non-integral foreign operations for incorporation in financial statements, the assets and liabilities, both monetary and non-monetary, of the non-integral foreign operations are translated at the closing rate, income and expense items of the non-integral foreign operations are translated at average exchange rates prevailing during the year, and all resulting exchange differences are accumulated as a 'Foreign Currency Translation Reserve' until the disposal of the net investment.

On the disposal of a non-integral foreign operation, the cumulative amount of the exchange differences which have been deferred and which relate to that operation are recognized as income or as expense in the same period in which the gain or loss on disposal is recognized.

When there is a change in the classification of a foreign operation, the translation procedures applicable to the revised classification are applied from the date of the change in the classification.

#### xv) Retirement and other employee benefits

- (a) Retirement benefit in the form of Provident Fund is a defined benefit obligation in case of fertiliser and shipping division of the Group and is provided for on the basis of actuarial valuation on projected unit credit method made at the end of each financial year. The difference between the actuarial valuation of the provident fund of employees at the year-end and the balance of own managed fund is provided for as liability in the books. Any excess of plan asset over projected benefit obligation is ignored as such surplus is distributed to the beneficiaries of the trust.

Provident Fund of Textile division of the Parent Company and Indian subsidiaries of CFCL Technologies Limited (CTL) and Pension Fund of all components of the Group are defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

- (b) Superannuation Fund is a defined contribution scheme. Liability in respect of Superannuation Fund to the concerned employees of Fertiliser & Shipping Division is accounted for as per the Group's Scheme and contributed to Life Insurance Corporation of India (LIC) / ICICI Prudential Life Insurance Company Limited (ICICI) every year. The divisions do not have any other obligation, other than the contribution payable to the superannuation fund. The divisions recognize contribution payable to the superannuation fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

- (c) Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. However, in respect of Fertiliser division, Group has taken policies from LIC, ICICI and Birla Sunlife Insurance Company Limited (BSLI), for Shipping and Textile divisions, Group has taken a policy from LIC and for one of the step down subsidiaries of CTL, the Group has taken a policy from Kotak Mahindra Old Mutual Life Insurance Limited (Kotak) to cover the gratuity liability of the employees. The difference between the actuarial valuation of the gratuity of employees at the year-end and the balance of funds with LIC, ICICI, BSLI and Kotak is provided for as liability in the books.
- (d) Retirement benefit in the form of post retirement medical benefit is a defined benefit obligation in case of fertilizer division of the Group and is provided for on the basis of actuarial valuation on projected unit credit method made at the end of each financial year.
- (e) Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.
- (f) The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains / losses are immediately taken to the Statement of Profit and Loss and are not deferred. The Group presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

#### xvi) Income Taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act 1961 enacted in India, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Group restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Group re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Group writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income, will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

#### xvii) Segment Reporting Policies

##### Identification of segments

The Group's operating businesses are organized and managed separately according to the nature of products manufactured, traded and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the locations of customers.

##### Allocation of common costs

Common allocable costs are allocated to each segment in proportion to the relative sales of each segment.

##### Unallocated items

All the common income, expenses, assets and liabilities, which are not possible to be allocated to different segments, are treated as unallocated items.

##### Segment accounting policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting financial statements of the Company as a whole.

#### xviii) Earning per share

Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of the equity shares outstanding during the year.

---

For the purpose of calculating diluted earning per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

**xix) Provisions**

A provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the obligation. Provisions are not discounted to its present value and are determined based on best management estimate required to settle the obligation at the reporting date. These estimates are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

**xx) Cash and Cash equivalents**

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

**xxi) Derivative Instruments**

In accordance with the ICAI Announcement derivative contracts, other than foreign currency forward contract covered under Accounting Standard 11, are marked to market on a portfolio basis, and the net loss after considering the offsetting effect on the underlying hedge item is charged to the Statement of Profit and Loss. Net gains are ignored.

**xxii) Employee Stock Compensation Costs**

**Holding Company**

Measurement and disclosure of the employee stock option scheme is done in accordance with Securities and Exchange Board of India (Share based employee benefits) regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India. The Group measures compensation cost relating to employee stock options using the intrinsic value method. Compensation expense is amortized over the vesting period of the option on a straight line basis.

**Subsidiary Company**

Employee stock compensation costs for stock options are recognized as employee benefit expenses in accordance with the guidance note on "Accounting for Employee Share-based Payments" issued by the Institute of Chartered Accountants of India, based on the grant date fair value of the options granted to employees. The fair value of the options is estimated on the date of grant using the Black-Scholes-Merton valuation model on the basis of an independent valuation performed and recognized in a graded manner on the basis of weighted period of services over the vesting period. The expected term of an option is estimated based on the vesting term and contractual term of the option, as well as expected exercise behaviour of the employee who receives the option. Expected volatility during the expected term of the option is based on historical volatility, during a period equivalent to the expected term of the option, of the observed market prices of the publicly traded equity shares of comparable listed entities. Expected dividends during the expected term of the option are based on recent dividend activity. Risk-free interest rates are based on the government securities yield in effect at the time of the grant over the expected term.

**xxiii) Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

**xxiv) Basis of classification of Current and Non Current**

Assets and Liabilities in the balance sheet have been classified as either current or non-current based upon the requirements of Schedule III to the Companies Act, 2013.

An asset has been classified as current if (a) it is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is expected to be realized within twelve months after the reporting date; or (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date. All other assets have been classified as non-current.

A liability has been classified as current when (a) it is expected to be settled in the Group's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is due to be settled within twelve months after the reporting date; or (d) the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. All other liabilities have been classified as non-current.

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

Net Deferred Tax Liabilities	<u>42769.62</u>	<u>41880.83</u>

\* In view of the capital gain expected on the slump sale of Textile Division as per the provision of Income Tax Act, 1961 pursuant to the Board of Director's decision to sell its Textile division in its meeting held on 14th March, 2015, management of the Parent Company has created deferred tax assets on the capital loss (to the extent of capital gain to be arisen on slump sale as above) as per the provision of Income Tax Act, 1961 arising out of the liquidation of its wholly owned subsidiary company.

**NOTE 6 (B): DEFERRED TAX ASSETS (NET) \*\***

Effect of expenditure debited to statement of profit and loss in the current year/ earlier years but allowable for tax purposes in following years	-	147.76
Differences in depreciation in block of fixed assets as per tax books and financial books	-	8.27
Gross Deferred Tax Assets	<u>-</u>	<u>156.03</u>

\*\* Deferred tax assets are calculated with reference to the business losses and unabsorbed depreciation as per tax and other timing differences. However, deferred tax assets have not been recognized as the management believes that there is no virtual certainty that sufficient future taxable income will be available to realize the deferred tax assets for the year ended December 31, 2014, except in case of an Indian step down subsidiary, ISG Novasoft Technologies Limited (ISGNTL). Deferred tax assets was recognized in the previous year as the ISGNTL had been generating profits and was expected to maintain a profitable trend in the ensuing future as well.

Deferred tax assets and deferred tax liabilities across various countries of operations are not set off against each other as the Group does not have the legal right to do so.

	Miscellaneous Rajasthan Sales Tax and Central Sales Tax demand.	38.47	38.47
3	Service Tax :		
	Service Tax demand received on services from foreign parties in respect of service tax not paid on Tax deducted at source (TDS) portion.	4.57	4.57
	Total	624.07	469.79

- (b) The Parent Company had received a demand of Rs. 352.34 lacs (Previous year Rs.352.34 lacs) from Sales Tax Department, Kota in an earlier year towards use of natural gas for ammonia fuel, power and steam generation for the period April, 1996 to May, 2001. The Parent Company has obtained a stay from Hon'ble High Court of Rajasthan, Jodhpur on 11th July, 2001. However, in the event of the Parent Company having to pay the above, it is reimbursable by Fertiliser Industrial Coordination Committee (FICC) / Government of India under Subsidy Scheme.
- (c) The Parent Company as well as other users of natural gas under HBJ Gas Pipeline had in earlier years received letters from GAIL (India) Limited (erstwhile Gas Authority of India Ltd), informing about the possibility of levy of excise duty on natural gas (presently not levied) with retrospective effect. The amount of such levy is not ascertainable. However, in the event of its levy, it is reimbursable by Fertiliser Industry Coordination Committee (FICC) of Ministry of Chemicals and Fertilisers, the Government of India under Subsidy Scheme.
- (d) The Parent Company as well as other users of Natural Gas under HBJ Gas Pipeline had received a letter in an earlier year from GAIL (India) Limited (erstwhile Gas Authority of India Ltd), informing about the possibility of levy of Central Sales Tax. The Parent Company has been taking the delivery of Gas in the State of Rajasthan and has been accordingly paying Rajasthan Sales Tax on the supply. Therefore, the Parent Company feels that no Central Sales Tax is payable by it. Further, the amount of such levy is not ascertainable. However, in the event of its levy, it is reimbursable by Fertiliser Industry Coordination Committee (FICC) of Ministry of Chemicals and Fertilisers, the Government of India under Subsidy Scheme.
- (e) Under the Jute Packaging Material (Compulsory use of Packing Commodities) Act, 1987, a specified percentage of fertilisers dispatched were required to be supplied in Jute bags up to 31.8.2001. The provisions of the said Act were challenged in the Supreme Court, which upheld the constitutional validity of this Act in its judgment in 1996. In spite of making conscious efforts to step up use of jute packaging material, the Parent Company had been unable to adhere to the specified percentage, due to strong customer resistance to use of jute bags. The Parent Company had received show cause notice from the Office of the Jute Commissioner, Kolkata, for levying a penalty of Rs.7380.36 lacs (Previous year Rs. 7380.36 lacs) for non compliance of the provisions of the said Act. The Parent Company has obtained a stay order from Delhi High Court against the above show cause notice and has been advised that the said levy is not tenable in law and accordingly no provision has been considered. Based on favourable decisions in similar cases, legal opinion taken by the Parent Company, discussions with the solicitors, etc., the Parent Company believes that there is fair chance of decisions in its favour in respect of all the items listed in (a) (i) to (v) and (b) to (e) above, hence no provision is considered necessary against the same.

### 32B Contingent liabilities (not provided for) in respect of Subsidiaries:

Claims lodged / suits filed against the Group by customers are as given below. In addition, the Group is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition. The details of the cases, the amount of claim (wherever quantifiable) and the subsidiary of the Group involved is as presented below:

#### (a) Richmond Title Services (RTS)

- Lawsuit by borrowers for fraudulent inducement to purchase 10 properties that were part of an alleged illegal flipping scheme. RTS named as defendant because it performed the title work. Errors and Omissions (E&O) carrier has accepted the claim and the Group's deductible is USD 25,000 (Rs. 15.76 lacs). Matter is currently stayed due to the plaintiff and one defendant filing for bankruptcy. The Group's liability for this claim is not expected to be material.

#### (b) ISGN Solutions Inc and ISGN Fulfillment Services Inc

- Lawsuit by a customer under United States Bankruptcy Code, claiming all the payments made by the customer 90 days prior to filing bankruptcy as "avoidable transfer". ISGN Solutions Inc and ISGN Fulfillment services have received USD 1,360,831 (Rs. 830.59 lacs) from the customer during this tenure, which is being contested. The Group's legal counsel is of the opinion that since the payment received was due to a debt incurred in the ordinary course of business, the payment would not amount to an "avoidable transfer". A settlement offer has been made and response from the customer is awaited. The Group's liability for this claim is not expected to be material.

#### (c) ISG Novasoft Technologies Limited.

### 35 Segment Information

#### Primary Segment : Business Segment

The Group has identified the business segment as its primary reportable segment as the Group's risks and rates of return are affected predominantly by differences in the products and services produced.

The Group's operating businesses are organized and managed separately according to the nature of products manufactured, traded and services provided. The five identified reportable segments are Fertilisers and other Agri- Inputs, Own Manufactured Phosphoric Acid, Textile, Shipping and Software & others.

"Fertilisers and other Agri-inputs segment includes manufacture and marketing of Urea, SSP and purchase and sale of Fertilisers and Agricultural inputs. During the beginning of financial year, the Parent Company has changed the policy of reporting of its segment information. The segment information is now being reported into three business segments (Fertilisers and other Agri-inputs, Shipping and Textile) by merging 'Own manufactured Fertiliser' and 'Traded Goods' segments into one business segment, namely Fertilisers and other Agri-inputs. The change has been made to reflect the Parent Company's segment revenue, results and capital employed more appropriately as it caters to the same geography, market, customers and needs of the farmers. The new segment information namely Revenue, Results and Capital Employed is derived by a simple arithmetic additions of the aforesaid particulars of the consolidating segments and as such there is no financial effect of the change."

The "Own Manufactured Phosphoric Acid Segment" (P2O5) includes manufacturing and marketing of Phosphoric Acid.

The "Textile segment" includes manufacturing and sale of synthetic and cotton yarn.

The "Shipping segment" includes transportation of crude oil and liquid products through vessels owned and/ or hired by the Shipping Division.

The "Software & Others Segment" includes software business, power & infrastructure activities of the Group.

### 36 Gratuity and other Post Employment Benefit Plans:

#### (a) Gratuity

The Group has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure @ 15 days (15 to 30 days in case of Shipping Division) salary (last drawn) for each completed year of service. The Scheme is funded with insurance companies in the form of qualifying insurance policies except in the case of crew employees of the Shipping division. Further, gratuity details below includes liability of software division of the Group also.

#### (b) Provident Fund

The Parent Company has set up provident fund trusts, which are managed by the Parent Company in respect of Fertiliser and Shipping division of the Parent Company and as per the Guidance Note on implementing AS-15, Employee Benefits (revised 2005) issued by the Accounting Standard Board (ASB), provident funds set up by employers, which requires interest shortfall to be met by the employer, needs to be treated as defined benefit plan. The actuarial valuation of Provident Fund was carried out in accordance with the guidance note issued by Actuarial Society of India and provided the interest shortfall of Provident Fund liability in the books of accounts.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and the funded status and amounts recognised in the balance sheet for the respective plans.

## 41 Employees Stock Option Scheme

### (i) Holding Company

#### Employee Stock Option Plan

In terms of approval of shareholders accorded at the Annual General Meeting held on 27th August, 2010 and in accordance with Securities and Exchange Board of India (Employee Stock Option Scheme & Employee Stock Purchase Scheme) Guidelines, 2014, (SEBI Guidelines) the Parent Company formulated CFCL Employees Stock Option Scheme, 2010 ("Plan") for specified categories of employees and managing director of the Parent Company. The Nomination and Remuneration Committee comprising of majority of independent directors administers the Plan. As per the Plan, 41,62,000 Stock Options can be issued to managing director and other specified categories of employees of the Parent Company. The options are to be granted at market price. As per SEBI Guidelines, the market price is taken as the closing price on the day preceding the date of grant of options, on the stock exchange where the trading volume is the highest. Each option, upon vesting, shall entitle the holder to acquire 1 equity share of Rs.10. Details of the scheme are as under:

#### Stock Options granted

The weighted average fair value of stock options granted till date is Rs.28.40 per option (Previous year Rs.28.40 per option). The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

Particulars	Tranche 1	Tranche 2	Tranche 3	Tranche 4	Tranche 5
Weighted average share price (Rs.)	73.50	76.85	82.90	101.10	69.40
Exercise Price (Rs.)	73.50	76.85	82.90	101.10	69.40

Expected dividend yield	7.02%	7.02%	5.77%	5.77%	4.62%

The expected volatility was determined based on historical volatility data. For calculating volatility, the Parent Company has considered the daily volatility of the stock prices of the Parent Company on National Stock Exchange over a period prior to the date of grant, corresponding with the expected life of the options.

In FY 2010-11, CFCL Employees Welfare Trust ("Trust") was constituted, inter alia, for the purpose of subscribing/ acquiring equity shares of Chambal Fertilisers and Chemicals Limited from the Parent Company /Secondary market, to hold the shares and to allocate/ transfer these shares to eligible employees of the Parent Company from time to time on the terms and conditions specified under the Plan. The Board of Directors at its meeting held on May 8, 2010 had approved grant of financial assistance upto Rs.3000 lacs by the Parent Company to Trust in such manner and on such terms as agreed between the trustee(s) of the Trust and Managing Director of the Parent Company for the purpose of subscribing/acquiring shares of the Parent Company. The outstanding loan to the trust as at March 31, 2015 is Rs.1615.25 lacs (Previous year Rs.1,665.10 lacs). Trust has purchased 2442,202 equity shares (Previous year 2,442,202 equity shares) of the Parent Company from the open market, out of interest free loan provided by the Parent Company till March 31, 2015.

#### (ii) Subsidiary Company

The Board of Directors of the CFCL Technologies Limited approved the 2007 Share Option Plan ('Plan') for granting stock options to certain employees of its subsidiary companies as per Management's discretion. A committee has been constituted to administer the Plan along with the Board and to determine the grant date fair value which would be the exercise price for such options. A total of 6,081,498 ordinary shares were reserved for issuance under the Plan.

The fair value of the ordinary shares has been determined by the management on the date of the grant of the stock options to the employees pursuant to the Plan using the Black-Scholes valuation model. The stock options vest equally over the period of 4 years and the exercise period is 10 years from the date of grant. The stock compensation cost is a component of the fair value of the stock options and the number of options, which is recognised as employee compensation cost over the vesting period, provided that the stock option holders continue to be in employment. The employee compensation cost recognised in the Statement of profit and loss is USD 1,077,124 (Rs. 657.43 lacs) {previous year: USD 1,099,530 (Rs. 644.21 lacs)}. The weighted average remaining useful life of the stock options is 8.59 years (previous year: 8.82 years).

The CFCL Technologies Limited, in its Board Meeting held on 19 July 2013, had modified the exercise price of all the outstanding stock options to USD 1.09 to bring it in line with the fair value of the share as at that date. Accordingly, all the existing stock options were re-priced at USD 1.09. The Company had accounted for this change in accordance with the Guidance Note on "Accounting for Employee Share-based Payments" issued by the Institute of Chartered Accountants of India.

The following table details the movement of options under the Plan mentioned above:

The following scheme is in operation:

**(iii) Since the Company used the intrinsic value method, the impact on the reported net profit and earnings per share by applying the fair value based method**

In March 2005, the ICAI has issued a guidance note on “Accounting for Employees Share Based Payments” applicable to employee based share plan, the grant date in respect of which falls on or after April 1, 2005. The said guidance note requires the Proforma disclosures of the impact of the fair value method of accounting of employee stock compensation in the financial statements. Applying the fair value based method defined in the said guidance note, the impact on the reported net profit and earnings per share would be as follows:

**42 Rights, preference and restrictions attached to preference shares**

Series H preference shares are convertible into ordinary shares in the ratio of 1:1. Series B and Series F preference shares are convertible into ordinary shares in the ratio of 1.02:1. Series C, Series D and Series E preference shares are convertible into ordinary shares in the ratio of 1.30:1. Series G preference shares are convertible into ordinary shares in the ratio of 1.63:1 Series A-1 and Series B-1 preference shares are convertible into ordinary shares in the ratio of 1.99:1. Series F-1 preference shares are convertible into ordinary shares in the ratio of 2.16:1. Further Series C-1, Series D-1 and Series E-1 preference shares are convertible into ordinary shares in the ratio of 2.75:1. The above conversion is subject to adjustments set forth in the Articles of Association of the CTL.

While the holders of preference shares may generally elect to convert into ordinary shares at any time, all preference shares will automatically stand converted in the above ratio under any of the following two circumstances:

- (i) immediately prior to a Qualified IPO (as defined in the Articles of Association of the CTL) or;
- (ii) with the vote or written consent of the holders of a majority of the then outstanding preference shares voting separately to convert the respective Series of preference shares based on above conversion ratio.

Preference shareholders carry voting rights on an as converted basis with ordinary shareholders, except for key governance protections outlined in the Articles of Association of the CTL, in which case each class votes separately on an as converted basis as per the terms of the preference shareholders agreement. Further preference shareholders carry preferential dividend rights over ordinary shares if declared by the Board of Directors and priority over ordinary shares in the event of any liquidation, dissolution or winding up of the affairs of CTL.

Within ninety (90) days after the receipt of a written request from members holding not less than a majority of the then outstanding preference shares, voting together on an as converted basis, that all preference shares be redeemed (such date within such ninety (90) days period being the "Redemption Date") and concurrently with the surrender by the holders of outstanding preference shares of the certificates representing such preference shares, the CTL shall, to the extent it may lawfully do so, redeem all of the then outstanding preference shares by paying an amount in cash per preference share to be redeemed equal to the greater of (i) the original purchase price per share (subject to adjustment for any Recapitalizations) and (ii) the fair market value of such preference share as of the Redemption Date, as determined by an independent third-party investment bank or similar financial service provider agreed to by the CTL and the holders of at least a majority of the preference shares then outstanding, voting together on an as-converted basis (the "Redemption Price").

If, on the Redemption Date, the funds of the CTL legally available for redemption of preference shares are insufficient to redeem all outstanding preference shares, those funds that are legally available will be used to make payment to the holders of preference shares on a pro-rata basis in proportion to the number of preference shares then held by such members. Any preference shares not redeemed shall remain outstanding and shall be entitled to all the rights and preferences provided herein. At any time thereafter when additional funds of the CTL are legally available for the redemption of the preference shares, such funds will immediately be used to redeem the balance of the preference shares not redeemed on the Redemption Date in the manner and in the order set forth in the preceding sentence.

In the event of liquidation, preference shareholders have a preferential right over ordinary shareholders to be repaid to the extent of capital paid-up and dividend in arrears on such shares.

Notes:

- (a) Unhedged Borrowings of Rs. 78,022.68 lacs (Previous year Rs. 99774.37 lacs) are not payable within next one year.  
 (b) The hedging of Foreign Currency outflows is decided after considering the extent of natural hedge available from foreign currency inflows from export of goods and shipping activities.  
 (c) In case of hedged transactions mentioned in (a) above, all losses, wherever applicable, as of March 31, 2015 have been provided for.  
 (d) Previous year figures have been given in brackets.

- 49 The Deferred Tax charge and dividend distribution tax for the current year ended March 31, 2015 includes additional charge of Rs.760.85 lacs and Rs. 28.75 lacs respectively. This is due to increase in rate of surcharge of income tax as proposed in the Finance Bill, 2015
- 50 Based on the favourable decision by Income Tax Appellate Tribunal (ITAT)/ and CIT (Appeals), the Parent Company had, during the previous year, reversed the amount of provision for Income Tax relating to Section 80-IA of Income Tax Act, 1961 for various years aggregating to Rs.5975.82 lacs. The same has been shown as Income tax credit related to earlier years.
- 51 The Parent Company had during the previous year consolidated the financial statements of CFCL Employees Welfare Trust (Trust) with the standalone financial statements of the Parent Company as per the opinion of Expert Advisory Committee (EAC) of Institute of Chartered Accountant of India (issued in the month of March 2014). The Trust had acquired in the past equity shares of the Parent Company from the secondary market for transfer to the eligible employees as per the CFCL Employees Stock Option Scheme of the Parent Company. Consequently, the Shareholders' Funds of the Parent Company had been adjusted by Rs.1656.92 lacs i.e. (a) downward adjustment in share capital by Rs.225.34 lacs being the face value of 2,253,402 equity shares held by the Trust, (b) downward adjustment in reserves by Rs.1518.79 lacs representing the purchase price in excess of face value of such equity shares; and (c) increase in reserves by Rs.87.21 lacs towards the accumulated profits of the Trust till 31.03.2013 and dividend received by the Trust during the year 2012-13. Further, the amount of loan of Rs.1665.10 lacs outstanding in the name of Trust in the books of the Parent Company as at 31.03.2014 had been eliminated against the amount of loan outstanding in the name of Parent Company appearing in the books of Trust as at 31.03.2014.

## 52 Discontinuing operation

In view of the Parent Company's strategy to focus more on its core business, Board of Directors of the Parent Company at its meeting held on March 14, 2015, inter alia, has approved the transfer of its textile business i.e. Birla Textile Mills (non core business) located in Himachal Pradesh, to Sulej Textiles and Industries Limited, as a going concern on slump sale basis w.e.f. April 01, 2015 at a consideration not less than the book value of assets. The aforesaid transaction is subject to requisite approvals as may be required. Further, the Parent Company has already received a sum of Rs. 500 lacs as an advance towards the aforesaid sale.

The following statement shows the revenue and expenditure of the discontinuing operation of Birla Textile Mills:
